

WOOD BATTLING ENTIRE FIELD IN ELECTIONS TODAY

REPUBLICANS IN THREE STATES ELECT DELEGATES TO THE NATIONAL CONVENTION

GENERAL IS CONFIDENT

Favorite Sons Expected to Receive
Endorsement of Massachusetts
and Ohio But Wood May
Get Slice of the Dele-
gations

By United Press Leased Wire
Boston, Mass.—First returns from
the Massachusetts presidential primary
today showed delegates to the
republican national convention pledged
to support General Leonard Wood
running behind.

The town of Carver reported the
following vote:

Senator Lodge, head of the "regu-
lar" state, 17; Samuel McCall,
pledged to support Herbert Hoover,
16; Murray Crane, 14; Frederick
Gillett, 12, and Edward Thurston,
11.

The last three were running with
Lodge on the regular state.

Other republican candidates for
delegates-at-large polled the follow-
ing vote:

Frothingham (pledged to General
Wood) 11; Lawson, 11; Wood
(pledged to General Wood) 6.

One vote was cast for the Walsh
state, democratic.

Mashpee was the next town to re-
port. The vote was:

Republican—Frothingham, 12;
Lodge, 11; Gillett, 8; Crane, 9;
Thurston, 6; McCall, 6; Lawson, 4;
Wood, 4; Fuller, 1.

Democratic—Walsh, 1; Long, 1;
Pelletier, 1.

(By Harold D. Jacobs)
New York.—When republicans of
three states started to the polls to-
day to vote in the presidential pri-
maries, it was a case of Major General
Leonard Wood against the field. The
situation sized up thus:

New Jersey—Wood vs. Senator
Hiram Johnson.

Ohio—Wood vs. Senator Warren
Harding.

Massachusetts—Wood vs. an unin-
structed delegation expected to sup-
port Governor Calvin Coolidge.

The Johnson organization has
made a particularly hard fight to
carry New Jersey in an effort to ob-
tain a foothold in the east. Political
observers believed the California
senator had about an even chance to
obtain the preferential vote but, held
that, even in that event, Wood prob-
ably would win a majority of the
delegates.

In Ohio, Wood was invading an-
other "favorite son" state. This situ-
ation was comparable to that in Il-
linois, where Wood fought with Low-
den for control of the latter's home
state. Only the names of Wood and
Harding were on the republican bal-
lot. It was believed, however, that
Johnson and Herbert Hoover might
receive many "written in" votes.

Some Wood delegates openly de-
clared for Hoover as their second choice,
while Harding delegates made simi-
lar declarations for Johnson.

The Wood organization had a slate
of delegates in Massachusetts dis-
tricts. Most of the rival delegates
were uninstructed with open lea-
guing toward Coolidge. Many of
the delegates were pledged to the gov-
ernor, however, and at least one had
expressed a preference for Hoover.

The general's eastern headquarters
today asserted that even if Massachu-
setts should cast its first ballot in the
national convention for Coolidge,
the state's second choice would be
Wood.

Republicans also were to select 14
delegates in a state convention in
Washington today. Senator Miles
Poindexter was expected to be en-
dorsed, though Wood, Johnson and
Hoover supporters had hopes of
splitting the delegates.

Eleven republican primaries have
been held to date. Johnson won
them in Michigan, Montana, North
Dakota and Nebraska. Wood was
victor in South Dakota, New Hamp-
shire and Minnesota and Lowden car-
ried Illinois and Oklahoma. In New
York and Wisconsin there was no
preferential vote, the balloting being
on uninstructed and instructed dele-
gates.

No "fire-works" was anticipated
in the three democratic primaries.

Governor Edward I. Edwards was
practically conceded the endorsement
of New Jersey and Governor James
M. Cox, of Ohio.

Followers of William G. McAdoo
professed to see a strong sentiment
for their candidate.

(By Voting Weather
By James T. Colbert)

Cleveland.—Inclement weather
reported in Ohio today may have a
bond in settling the fate of Senator
Warren G. Harding at the republican
national convention in Chicago.

A comparatively light vote was ex-
pected at the primaries, which opened
at 6:30 a. m. Political observers
assert Harding's reception by the
convention will be in proportion to
the vote accorded him by his own
state. If General Wood, his chief
opponent, is given 10 of the 48 dele-
gates and a goodly share of the presi-
dential preferential vote, Harding's
stock will be below par, they said.

Both sides claimed the drab weather
would work to their advantage.

See Big Hoover Vote

Harding supporters said they were
sure of at least 38 of the 48 dele-
gates. The Wood supporters were
satisfied to claim 10 delegates, as
they believe this number would be

Cleanliness Is Motto Of Cream Plant

Formal Opening of Mory Ice Cream
Company's Plant Will Take
Place Shortly After May
1—Machinery Being
Installed

"From the time the raw cream goes
up the elevator to the raw products
refrigerator until it comes out a fin-
ished product it is not touched by hu-
man hands," said Karl B. Mory, vice
president and general manager of the
new plant of the Mory Ice Cream com-
pany yesterday, while showing a news-
paper representative through the
building on west College avenue which
is one of the most modern of its kind
in the state. The cream is drawn
from one machine to another by ei-
ther suction or gravity.

"Special attention is to be paid to
sanitation," said Mr. Mory, "and the
public is invited to inspect our plant
and see how the cream is made as
soon as we commence operations
which will be shortly after May 1. The
plant has a daily capacity of 2,000 gal-
lons of ice cream. C. S. MacBride, a
freezing expert of Washington, D. C.,
has arrived and is waiting for the
workmen to complete installation of
the ice machine before starting opera-
tions.

"The plant would have been in op-
eration by this time had the company
not been delayed in getting its ma-
chine which was tied up in Chicago by
the railroad strike. Motor trucks
were dispatched to get it, otherwise
it would not have been here for some
time. The work of installing it is
progressing rapidly and it will be re-
ady for operation by the last of the
week. The walls of the building are
to be finished in white enamel and
everything about the plant is to be
kept scrupulously clean.

As soon as the raw cream reaches
the raw products refrigerator on the
second floor samples are taken of
each can of raw cream or milk that
comes to the factory for testing. The
testing room, also on second floor, is
equipped with a Babcock tester. The
tests are made for purity, butter fat
and acidity. In the process of manu-
facture the cream is also pasteurized
to kill all disease germs. The ma-
chinery is driven by electric motors
and has copper fittings throughout.
The building is especially well lighted
and is equipped with handsome offices
which are located in the rear.

Cleanliness Emphasized
From the raw products refrigerator
the cream and milk go to a 300 gallon
mixer where sugar is added and the
whole mixture pasteurized. From
there the mixture goes to the homoge-
nizer where the fat globules are
broken up and the viscosity of the
cream improved. This machine op-
erates at a pressure of 3,000 pounds
pressure to the square inch and forces
the mix through steel dies. The mix
then goes over a copper cooler and
into holding vats each of which have
a capacity of 300 gallons.

From there it passes by gravity
down stairs into the freezing room
which is equipped with two electric
driven brine freezers. The cream
comes out of the freezers in a semi-
liquid state. It is placed in cans and
removed to the zero hardening rooms
which have a capacity of from 5,000
to 6,000 gallons and thence finds its
way to the shipping room.

Cans returned to the factory go di-
rect to the wash room where they are
washed and sterilized by an electric
driven washing machine. The ice
room for packing the cream is pro-
vided with an electric crusher. The
walls of the various departments are
insulated with cork. The company
has just received a carload of sugar
which will keep it supplied for some
time. A formal opening of the plant
will be held but the date has not yet
been announced.

U. S. FARMS IN MEXICO ARE SOURCES OF STRIFE

Washington, D. C.—American op-
eration of tropical farms in Mexico "on-
ly begets strife," John Lind, of Min-
nesota, told the senate Mexican affairs
committee today.

"It was a very great misfortune that
Americans ever became involved in
tropical estates in Mexico," Lind said.
Explaining his mission to Mexico
in 1913-14, as confidential agent for
President Wilson, Lind said his "sole
object was to secure peace under a
constitutional and orderly govern-
ment."

Lind denied he was sent there "to
get Huerta," but acknowledged that
he proposed Huerta order new elec-
tions and not stand as a candidate.

Lind said his position was later con-
firmed by views of Von Hiltze, Ger-
man minister, but that he reached
them before conferring with the em-
bassy representative.

Alfred Hoh of Greenville, whose
barn was destroyed by fire several
months ago, is planning a barn rais-
ing bee to be held soon. Work is al-

and the material is on the ground
for the superstructure.

A special rehearsal of Trinity En-
glish Lutheran church choir will be
held tomorrow evening instead of
Thursday, at the church. The choir
is preparing the musical program to
be given at the church Sunday night.

sufficient to deal Harding's chances
a staggering blow. Harding and
Wood fought a bitter battle for
Ohio's endorsement.

Senator Hiram Johnson and Her-
bert Hoover were expected to receive
a considerable vote.

A very light democratic vote was
in prospect. Governor Cox has no op-
ponent for the democratic endorse-
ment and less than 100,000 votes
will probably be cast. Forty-eight
democratic delegates will be seated
at the San Francisco convention.

ITALIANS BITTER AS FIUME CONTROL IS LEFT UNSOLVED

A DEMONSTRATION FAVORING
ITALIAN CONTROL OF ADRI-
ATIC IS STAGED IN
SAN REMO.

NO HELP FOR ARMENIANS

Democratic Leader Avers Armenian
Mandate Will Never Be Accep-
ted—Note to Wilson is
Completed by
Premiers.

(By Camillo Cianfarra.)
San Remo.—Italians took advantage
of a concert in honor of the visiting
allied delegations tonight to stage a
demonstration in favor of awarding
Fiume to Italy.

All the allied leaders who had been
attending the sessions of the council
of premiers, which closed at 8 p. m.,
were in the audience.

When the orchestra struck up the
Italian national anthem, the Italians,
led by members of the nobility who
are wintering on the Riviera, rose
and, turning toward Prime Minister
Lloyd George and Premier Millerand,
shouted: "Long live Fiume and the
Adriatic. We fought for them but
with 500,000 Italians dead, you gave
a whole empire to Greece who mur-
dered your soldiers in the streets of
Athens."

Lloyd George and Millerand only
smiled resignedly.

There was bitter feeling in Italian
circles over the failure of the coun-
cil to settle the Adriatic dispute at
the session just closed. It was the
more tense in view of the concession
granted Greece in the Smyrna dis-
trict of Turkish Asia Minor.

The council completed its reply to
President Wilson's Armenian note,
but announced the text would not be
made public until it had been re-
ceived in Washington.

It was learned semi-officially that
the council virtually decided to as-
sign Italy a large economic "zone of
influence" in Anatolia, bordering on
the Greek zone, which surrounds
Smyrna. The territory is rich in nat-
ural resources.

Italy also would reserve three-
fourths of the Heraclea Eregli, mid-
way between Komieh and Adana coal
fields. The final communiqué, issued
on the council's last session this af-
ternoon, said:

To Meet Germans.
"The council approved the last
clauses of the treaty of peace with
Turkey and also the note to President
Wilson, prepared by the British, re-
garding Armenia.

"It approved the note to Germany
and decided to invite German repre-
sentatives to attend a council meet-
ing with regard to the treaty of Ver-
sailles.

"After attending the question of
destruction of German naval material
and trial of criminals, the council ad-
journed."

The various missions were to leave
San Remo Tuesday.

Premier Nitti of Italy, told news-
paper men tonight he expects to meet
Antone Trumbitch, the Jugo-Slav
representative, within a few days to
renew discussions on the Adriatic
question, scheduled to be held at the
next meeting of the premiers in Paris.

Will Reject Mandate
Washington.—Rejection of the al-
lied proposal that the United States
accept the mandate for Armenia, was
forecast today when Senator Hitch-
cock, administration spokesman, de-
clared he did not believe the Ameri-
can people would sanction such a
proceeding.

Added to republican comment
which declared the plan was an
attempt to "wish on us the poorhouse
of the world," Hitchcock's attitude
was believed to indicate definitely
that congress will never give its con-
sent to the project.

Senators take the position that the
allied statesmen have stripped the
Near East of everything they want
and now offer to the United States
the mandate for Armenia.

Called World "Poorhouse"
This mandate would involve Ameri-
ca in large expenditures and possible
war, it is held.

"If we accept the mandate, we
should most certainly have Constani-
nople and control of the Dan-
ubian, but I see no mention of this
in the offer of the allies," said Hitch-
cock.

Senator Moses, New Hampshire, re-
publican, said that the action of the
allied premiers "represents the final
effort to wish on us the poorhouse of
the world."

U. S. STARTS PROBE OF RAILWAY STRIKE

New York.—Federal inquiry into
strike conditions in New York was
conducted today by Judge C. B.
Ames, assistant United States dis-
trict attorney.

Ames planned to make a thorough
probe of not only the "outlaw"
strike of railroad employes but also
of the strike of longshoremen and
steamship clerks.

The inquiry was held behind clos-
ed doors. Representatives of busi-
nessmen's organization and civic
clubs were the first witnesses to ap-
pear.

Constant improvement in the rail-
road strike condition was reported
by railroad managers.

LABOR SECRETARY IS CHARGED WITH RELEASING REDS

CONGRESSMAN CHARGES SECRE-
TARY WILSON CONDONED
ACTS OF ASSISTANT SEC-
RETARY POST

DEPORTATIONS BLOCKED

Investigation Looking Toward Im-
peachment or Dismissal of Post
is Started in Congress—
See Strike at
Government

Washington.—Investigation looking
toward impeachment or dismissal of
Louis F. Post, assistant secretary of
labor, on a charge of blocking depor-
tations of many aliens seeking over-
throw of the government by force and
violence, was started today by the
house rules committee. Representa-
tive Hoch, Kansas, declared that hun-
dreds of radical alien deportation or-
ders were cancelled by Post. He
charged that Post ordered the release
of at least 28 radical aliens, even be-
fore hearings were held.

Members of the committee attacked
Secretary of Labor Wilson for allow-
ing decisions of Post to stand. Repre-
sentative Johnson, South Dakota,
declared that failure of Wilson to
over-ride Post in any case indicates
he must be held responsible for fail-
ure to deport radicals.

No Room Here For Reds
"There is no room here for Reds,"
said Hoch, "that there exists a wide-spread
and carefully planned effort to Rus-
sianize this country—to overthrow this
government by force and violence. The
movement is not only against order-
ly government but it is against the
institution of marriage, the church,
religion and all the establishments
of civilization."

"The attitude of a responsible of-
ficial towards the law against alien
anarchists is therefore of vital con-
cern. There is no room in this coun-
try for aliens who come not to be-
come responsible citizens, but to
poison the public thought against our
institutions and to preach violence
against our government and officials.
They are getting off easy by only be-
ing sent home."

"Here is the situation: Many hun-
dreds of aliens taken for deportation
under the law against alien anar-
chists, have been turned loose. Among
them are not only aliens taken
in the so-called reds, but scores of
others taken under individual ar-
rests all over the country because of
their known activities."

Hoch mentioned the cases of
Gabriel Bushoff, Philadelphia, En-
rique Magon, Los Angeles and Paul
Bosen, West Virginia, as three ex-
amples in which Post cancelled de-
portation warrants which were
recommended by the bureau of im-
migration. These aliens, admitted
that they advocated overthrowing the
government by force and violence, he
said.

He declared that C. A. K. Martens,
the so-called soviet ambassador, was
allowed to enter the United States
by the labor department and re-
leased upon his own recognizance.

"The public is seeing its laws vio-
lated," said Chairman Johnson of the
immigration committee, "by public
officials in behalf of aliens who have
contempt for this government, who
are here trying to overthrow it, and
who are in league with similar revo-
lutionists throughout the world,
whether they call themselves social-
ists, bolsheviks, communists or anar-
chists, or whether they contribute
dollars to the cause or throw bombs
for the cause."

He declared that C. A. K. Martens,
the so-called soviet ambassador, was
allowed to enter the United States
by the labor department and re-
leased upon his own recognizance.

"The public is seeing its laws vio-
lated," said Chairman Johnson of the
immigration committee, "by public
officials in behalf of aliens who have
contempt for this government, who
are here trying to overthrow it, and
who are in league with similar revo-
lutionists throughout the world,
whether they call themselves social-
ists, bolsheviks, communists or anar-
chists, or whether they contribute
dollars to the cause or throw bombs
for the cause."

A decision on the government suit
against the alleged Lehigh Valley
Railroad coal combine which is simi-
lar to the Reading case, is expected
soon. It would not in any way be
affected or decided by the court's de-
cision yesterday, as it was erroneously
reported by a press association.

Justice Clarke, at the outset of his
opinion, announced clearly that he
was delivering the judgment only in
the Reading case.

Watch Company.

HUNDREDS KILLED IN RED OUTBREAK IN JUGO-SLAVIA

BOLSHEVIST REVOLT IN NEW
NATION COSTS MANY LIVES
—MACHINE GUNS ARE
USED

London.—A bolshevik revolution
has broken out in Jugo-Slavia, a
News Agency dispatch from Rome,
quoting the Trieste correspondent of
the Rome newspaper Messaggero,
said today.

Hundreds have been killed, the
dispatch said. In Belgrade the gov-
ernment was reported protecting it-
self with machine guns.

The dispatch was unconfirmed.
Twenty persons were reported killed
in Agrani.

Eighteen were reported killed in
Ljubiane (Ljubljana).

Reports of grave internal troubles
in Jugo-Slavia have been current for
several days. Telegraph and tele-
phone service has been interrupted.

The Jugo-Slav delegates, in asking
postponement of settlement of the
Adriatic controversy by the council
of premiers at San Remo, gave inter-
nal unrest as one of the reasons why
they wished the delay.

A meeting of the directors of Ap-
pleton high school bank was held
this afternoon at the school. Import-
ant business matters were taken up.

William Clifford of Chilton, who
is to assume the duties of accountant
at the waterworks office May 1, was
in Appleton Sunday calling on friends.

Underwood Is New Leader Of The Minority

Election of Alabama Democrat as
Senate Minority Leader
Revives Discussion of Peace
Treaty and Peace
Resolution

By United Press Leased Wire
Washington.—Senator Underwood,
of Alabama, today was elected demo-
cratic leader of the senate by un-
animous vote of the minority. The
caucus at which Underwood was se-
lected lasted five minutes.

Underwood said he had no state-
ment of policies to make at this time
and that he did not contemplate an
immediate visit to the White House.
He intimated that another caucus
might be held to discuss party plans.
He said he had no plans regarding
the treaty or the peace resolution,
except that he expected to oppose the
resolution.

Asked concerning the published
statement that the president will re-
submit the treaty this summer, ac-
companied by reservations acceptable
to him, Underwood said he had no
knowledge on the subject and doubt-
ed anyone except the president had
definite information.

Revives Treaty Talk
Underwood's election, however, re-
vived treaty talk in the senate to-
day because many republicans feel
that with him as leader, it would be
possible to reach an agreement on
reservations. Senator Lodge and
other republican leaders apparently
find Underwood easier to deal with
than Senator Hitchcock, who was
acting leader and in charge of the
treaty.

Mild reservationist republicans are
expected to initiate a movement for
agreement on treaty reservations.

It is probable that they will sug-
gest to Underwood that he take up
the matter with the democrats and
that they work together to obtain
signatures to an agreement to be
submitted to President Wilson.

Mild reservationists believe, they
said, that if 64 senators would agree
on a set of reservations, the presi-
dent would re-submit the treaty.

GOVERNMENT TAKES NEW HEART FROM COURT'S DECISION

DECISION IN READING CASE TO
RESULT IN PROSECUTION OF
OTHER ANTI-TRUST
ACTIONS.

Washington.—Pending and con-
templated anti-trust court actions
will be prosecuted with vigor as the
result of the supreme court's order
yesterday dissolving the Reading coal
combine, government attorneys indi-
cated today.

Plans were held in abeyance since
the steel trust decision, which was un-
favorable to the government, some
officials of the department of justice
thinking that future prosecutions
might be futile.

In the Reading decision, however,
the court took drastic action when it
was shown that there was a clear
violation of the anti-trust statutes.

A decision on the government suit
against the alleged Lehigh Valley
Railroad coal combine which is simi-
lar to the Reading case, is expected
soon. It would not in any way be
affected or decided by the court's de-
cision yesterday, as it was erroneously
reported by a press association.

Justice Clarke, at the outset of his
opinion, announced clearly that he
was delivering the judgment only in
the Reading case.

Other anti-trust cases pending in
the court are those against the East-
man Kodak Company, the Quaker
Oats Company and the Keystone
Watch Company.

OBSERVER'S REPORT TO GO BEFORE THE CABINET

Washington, D. C.—Ambassador Robert
Underwood Johnson's report of
the suppressed civil proceedings at
San Remo at which he acted as unof-
ficial American observer, was to be
laid before President Wilson at the
cabinet meeting called for this af-
ternoon.

Johnson's report was received to-
day at the state department. Secre-
tary Coghly planned to submit it to the
president and the cabinet at 3 p. m.

Although no hint of the nature of
the report was to be had from offi-
cial sources, it is believed it contains
important confidential information on
the deliberations and conclusions of the
allied premiers at the San Remo
meeting just concluded and also the
allied arguments in favor of the United
States accepting the mandate for
Armenia.

WILSON WILL RUN AGAIN IF THERE IS ANOTHER WAR

By United Press Leased Wire
Washington, D. C.—President Wil-
son will be a third time nominee if
war breaks out in Europe "as now
seems inevitable," former Senator
James Hamilton Lewis declared here
today.

Lewis called on Secretary Tumulty.
Afterward he said:

"The second war has followed every
peace. If war broke out anew in Eu-
rope, the people will call on Wilson."

He predicted that Charles E. Hughes or
Senator Kellogg, Minnesota, would be
the republican nominee.

"The republican fight in Illinois,"
he said, "has removed Lincoln's
hanters for the nomination."

MUST ACT AT ONCE TO RELIEVE CONGESTION IN THE HIGH SCHOOL

IRISH PRISONERS ON HUNGER STRIKE 7 DAYS

By United Press Leased Wire
London.—The "hunger strike" of
174 of the 179 Irish prisoners in
Wormwood Scrubs jail entered its
seventh day today.

The condition of 12 of the prison-
ers was reported serious. Seventy
were in bed from weakness.

The strike is in protest against
"continued imprisonment without
charge or trial," Arthur O'Brien, sec-
retary of the Irish Self-Determination
League, said.

SLAYERS OF FAMILY OF EIGHT VISITED HOUSE AFTER CRIME

TWO MEN SUSPECTED OF MUR-
DERING NORTH DAKOTA
FAMILY JOIN CURIOUS
NEIGHBORS

By United Press Leased Wire
Turtle Lake, N. D.—The two men
responsible for the murder of eight
on the farm of Jacob Wolf near here,
joined crowds of curious neighbors
at the farm later, authorities believed
today. Their arrest was expected
momentarily.

Both men are alleged to have had
trouble with Wolf in the past. Both
are said to have borrowed money
from Wolf at various times. One of
them received a shotgun from a Chi-
cago mail order house recently. It
is believed identical with the shotgun
found in a pond near the Wolf farm
with which seven of the victims were
killed.

Because suspicion centered on
these two men, authorities asked
them to assist in taking five of the
bodies from the basement. The men
did so silently while others talked
constantly. An officer commented
that none of the shotgun shells had
been found in the house. One of the
men went outside, and despite the
fact it was dark, soon returned say-
ing he had found the shells in a pile
in the yard.

It was evident two guests were at
the Wolf home Thursday as the din-
ner table was set for ten.

Wolf was shot in the back at long
range. Authorities believe the mur-
derers then killed the rest of the
family to silence witnesses.

Mrs. Wolf was shot at close range
in the back. Every one of the vic-
tims were shot in the back except
Martha, 3, whose forehead was
crushed with a hatchet. The other
victims were: Bertha, 13; Maria, 10;
Edna, 8; Lidia, 6; and Jack Hofer, 12,
hired man.

AMERICAN AID FOR EUROPE IS URGED

COMMITTEE ON EUROPEAN FI-
NANCE MAKES RECOMMEN-
DATIONS TO NATION-
AL C. OF C.

(By Ralph Couch.)
By United Press Leased Wire
Atlantic City, N. J.—American aid
for reconstruction work in Europe
was recommended today to the cham-
ber of commerce of the United States
by the national committee of Euro-
pean finance, which declared the fol-
lowing steps were necessary:

Shipment of raw materials to Eu-
rope.

Revision of the excess profits and
income taxes in this country.

Sanction and co-operation of the
government in plans for extending
private credit to Europe.

Formal establishment of peace.

Increased thrift and decreased con-
sumption by Americans.

Increased production, reduction of
inflated currency and political stabili-
ty in Europe.

The committee was appointed by
the chamber of commerce following
the international trade conference
here last October. The report was
presented today by James S. Alexan-
der, president of the National Bank
of Commerce of New York, as chair-
man.

As to the ratio of cost to the differ-
ent ventures proposed, it was the
opinion of the superintendent that
the only additional expense involved
in her plan of erecting a separate
building would be the purchase price
of the land. This ought to be looked
at from the standpoint of Appleton's
future educational needs, she said.

All but three members of the board
are in favor of the Lawrence street
project, after giving the matter thor-
ough study.

A junior high school has always
been and will continue to be the
ambition of Miss Morgan. It makes
possible the grouping of pupils of the
adolescent age so that they can have
separate and special training. They
can be given a wider range of stud-
ies than the district plan presents,
including manual training, domestic
science, elementary science and other
subjects. By doing away with
(Continued on Page 8)

Double Wedding.

The double wedding of Miss Mary Volt and Oscar Dohr, and Miss Modesta Gerlach and Alois Dohr took place this morning. Oscar and Alois

Dohr are sons of Mr. and Mrs. Nickolas Dohr of 663 South River street. The marriage of Miss Mary Volt, daughter of Mrs. Theresa Volt, Hilbert, and Oscar Dohr, was performed at eight o'clock at St. Joseph church. Alois Dohr and Miss Modesta Gerlach attending the couple. The bride was dressed in a tricot suit, and carried a bouquet of sweet peas and roses. Her attendant wore a silver-tone suit, and also carried sweet peas and roses. Mr. and Mrs. Dohr will make their home at 792 Madison street, this city, after a brief wedding trip to Milwaukee.

Miss Modesta Gerlach, daughter of Mr. and Mrs. Wilfred Gerlach of 636 State street, was married to Alois Dohr at 9 o'clock at St. Joseph

church. The couple was attended by Miss Stella and Otto Dohr.

Miss Gerlach was dressed in blue silk, with a black crepe de chien hat, and carried a bouquet of carnations and roses. The bridesmaid was also dressed in blue silk, and carried carnations and roses.

The couple will leave this afternoon for a brief wedding trip to Milwaukee. They will make their home at Peshtigo, where the groom is the head of the cost department of the Peshtigo Pulp and Paper Company.

A reception was held this morning at the Dohr home for friends and relatives. A wedding dinner was served at one o'clock at Hotel Appleton to seventy guests.

Among the out-of-town people who attended the double ceremony were Mr. and Mrs. Bert Lenz, Mrs. Margaret Dohr, Mr. and Mrs. Peter Vollmer, Mr. and Mrs. Anthony Dohr, Mr. and Mrs. John Anheiler, Hilbert; Mr. and Mrs. John Meier, St. John; Mr. and Mrs. John Dohr, Mr. and Mrs. Jacob Dohr, Chilton; Mr. and Mrs. Nick Maurer, Mr. and Mrs. Matt Maurer, Sherwood; Mr. and Mrs. Peter Dohr, Reno, Nev.; Joseph Maurer, Porterville, Calif.; Mr. and Mrs. John

Volt and children; Menasha; Mr. and Mrs. Frank Schneider and daughter, Miss L. Meltinger, Oshkosh; Mrs. Anne Meyers and daughter, Milwaukee.

Announcement of the approaching marriage of Miss Zeta Hoberg, daughter of Mr. and Mrs. John Hoberg, Green Bay, to Joseph P. H. Martin, Green Bay, which will take place June 2, was made at a one o'clock luncheon party at the Hoberg home Saturday. Thirty guests were present. The home was prettily decorated with pink roses. Mrs. Joseph Marston of this city and Miss Helen Carroll of Grand Rapids, were the out-of-town guests.

Campfire Girls
A meeting of the Campfire Girls was held at four o'clock Monday afternoon in the First Methodist church.

Wednesday Club.
The Wednesday club will meet tomorrow afternoon at the home of Mrs. H. D. Reese, Prospect street. The program, "Edmund Rostand and the French Drama of Today," will be under direction of Mrs. H. E. Peabody.

Licensed in Menominee.
A marriage license was granted

Lieut. L. Hugo Keller, son of Postmaster and Mrs. Gustave Keller of this city, and Miss Basile C. O'Hara of Hurley. Other applications were: Edward E. Lutz and Susie Dauter-mann of Appleton; John Eisenrich and Barbara Ebert of the town of Seymour; Otto Prochaska of Detroit and Ruth Donke of Appleton.

Eastern Star Party
Members of the Lawrance chapter of the Order of the Eastern Star are making plans for a party to be given shortly. Members of the Compass and Square fraternity will be the guests of the sorority.

Plan May Ball
The Moonlight Dancing club will give a May Ball at the armory Friday night, April 30. The hall will be appropriately decorated for the occasion. A May pole to be the feature of the decorations. Music will be furnished by the Stevens' and the Star orchestra.

J. G. Club Meeting
Miss Stella Vanden Heuvel, North Division street, will entertain the members of the J. G. club Wednesday evening at her home. The evening will be spent in sewing.

Little Chute Dance
One hundred and fifty couples attended the dancing party at Watry's

Wanted: Laborers for Construction Work at Interlake Pulp & Paper Co. Plant. Best of wages for this class of labor. C. R. MEYER & SONS.

Saturday at Menominee, Mich., to Arthur F. Boerner, Appleton, and Miss Gertrude Galey, Kaukauna.

Railway Men's Dance.
The United Brotherhood of Maintenance of Way Employees will give another dancing party at the armory May 7. Continuous music will be furnished by two orchestras.

Fortnightly Club
The Fortnightly club will meet tomorrow afternoon at the home of Mrs. William Eschner, Morrison street. The program, in charge of Mrs. H. W. Tuttrup, will be on the "Republic of Panama."

To Wed in Menasha.
Invitations are being issued for the marriage of Miss Trace Borsche and George J. Palm, both of the town of Harrison. The ceremony is to take place at nine o'clock Tuesday, May 4, at St. Mary church, Menasha, and a reception is to be held in the evening at Ottoman hall. Miss Borsche is the daughter of Mr. and Mrs. Carl Borsche, and Mr. Palm is the son of Mr. and Mrs. Joseph Palm, all of Harrison.

Entertain Friends
Mr. and Mrs. Oliver Pavel entertained twenty friends at their home at 772 Second Avenue Saturday evening. Music and dancing occupied the evening. Refreshments were served.

Wednesday Music Club
The Wednesday Music Club will meet tomorrow afternoon with Mrs. J. H. Melnich, 1079 Second street. Following is the program:
"Ave Maria," Bach, Gounod—Mrs. J. J. Ellsworth.
"Sweet Spirits Hear My Prayer"—Mrs. Emil Voecks.
Song of Ruth "Entreat Me Not to Leave Thee," Gounod—Miss Maude Harwood.
"Ave Maria," Gounod—Mrs. Elmer Dunn.
Violin Obligato—Mrs. Emil Voecks.
"Omnipotence," Schubert—Mrs. Arnold Berger, Mrs. Eric Lindberg, accompanist.

K. C. Ladies Party
The weekly card party of the Knights of Columbus Ladies will be held tomorrow afternoon at K. C. hall. This will be visiting day and members and their friends are invited.

H. T. G. Club.
The H. T. G. club met last evening with Miss Josephine Letter, State street. One new member, Miss Delia Schmidt, was received into the club to take the place of Miss Mabel Reier. Five hundred was played and the prize won by Miss Virginia Carley. Dainty refreshments were served. Next week's meeting will be held at the home of Miss Rena Courtney, North street.

Y. M. C. A. Supper.
Plans for boosting the membership of the Y. M. C. A. will be outlined to-night following a supper given at the association building. About thirty business and professional men will be present.

The association is endeavoring to secure 100 new members, and is offering a special rate of \$5 for a six month card.

Eastern Star Meeting.
A delegation of over fifty members of the local chapter of the Order of Eastern Star is expected to attend the annual district convention tomorrow at Menasha. Those who are going will leave on the 1:45 car in order to be present at the afternoon session.

A 6:30 o'clock banquet will be given at the Hotel Menasha this evening. Business will be resumed at 7:30 o'clock.

Form Alumnae Club
Alumnae of the Lawrence college chapter of Phi Mu have organized an Alumnae club. Miss Ruth Pinkerton of Antigo was elected president and Miss Ethel Buckmaster of this city was elected editor of the magazine which the club intends to issue.

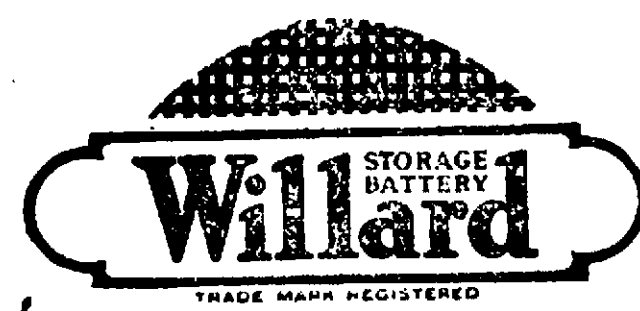

Sorority Formal
Members of Alpha Gamma Phi sorority and their friends will be entertained Saturday night at a formal dancing party at Elks club. A large number of alumnae are expected to be present.

Marriage Licenses.
Among those who made application for marriage licenses this morning to Herman J. Kamps, county clerk, was

LABOR LEADERS ADDRESS MAINTENANCE OF WAY MEN

C. O. Sherman, an official of the United Brotherhood of Maintenance of Way Employees, addressed the local union at a meeting at Trades and Labor Council hall Monday. Talks were also given by Mr. Perry, organizer, and C. B. Ballard, Grand Chute.

Mrs. Catherine Willson, formerly of this city, is visiting with Mrs. Eliza Harwood, North street.

"LASTS a lifetime" is sometimes an exaggeration and sometimes just a plain lie. About Threaded Rubber Insulation it is rock-bottom truth, for you can depend on it to last through the lifetime of the battery. You get Threaded Rubber only in the Still Better Willard with the Threaded Rubber Trademark on the box.

Pennsylvania VACUUM CUP CORD TIRES

Not High Priced

DEALERS tell us that many people infer Vacuum Cup Tires and "Ton Tested" Tubes are high priced, assuming that quality and high prices naturally go together.

To the contrary, they are very moderately priced, due to a perfected factory organization operating in a plant utilizing every modern improvement and practical labor saving device, and marketing under an independent zone selling system which makes possible highest quality at economy prices.

Compare these prices—standardized net and uniform throughout the United States—with those of ordinary makes. Pay no more for Pennsylvania products—do not expect them for less.

Adjustment basis—per warranty tag attached to each casing:

OPENING GAMES IN SCHOOL LEAGUE ARE POSTPONED 2 DAYS

RE-ARRANGEMENT OF SCHEDULE IS MADE NECESSARY—THREE TEAMS ANNOUNCE LINE-UPS

Opening games in the grade school baseball league scheduled for today have been postponed until Thursday, because the playing fields are not yet in shape. The schedule has also been re-arranged. Jack Payne, head of the boys' department of the Y. M. C. A., announced today, as follows:

Thursday, April 29—Fifth ward vs. Columbus-Franklin, First ward; St. Mary vs. Lincoln, Jones' Park; Fourth ward vs. First ward, Fourth ward; Zion school vs. Third ward, Pierces' Park.

Tuesday, May 4—Fifth ward vs. St. Mary, Pierces' Park; Columbus-Franklin vs. Lincoln, Fourth ward; Fourth ward vs. Zion school, Jones' Park; First ward vs. Third ward, First ward.

Thursday, May 6—Fifth ward vs. Lincoln, Fourth ward; Columbus-Franklin vs. St. Mary, First ward; Fourth ward vs. Third ward, Pierces' Park; First ward vs. Zion school, Jones' Park.

Tuesday, May 11—Fifth ward vs. Fourth ward, Jones' Park; Columbus-Franklin vs. First ward, Pierces' Park; Lincoln vs. Zion school, First ward; St. Mary vs. Third ward, Fourth ward.

Thursday, May 13—Fifth ward vs. First ward, Pierces' Park; Columbus-Franklin vs. Fourth ward, First ward; Lincoln vs. Third ward, Jones' Park; St. Mary vs. Zion school, Fourth ward.

Tuesday, May 18—Fifth ward vs. Zion school, Fourth ward; Columbus-Franklin vs. Third ward, Jones' Park; St. Mary vs. Fourth ward, Pierces' Park; Lincoln vs. First ward, First ward.

Thursday, May 20—Fifth ward vs. Third ward, Pierces' Park; Columbus-Franklin vs. Zion school, Jones' Park; St. Mary vs. First ward, First ward; Lincoln vs. Fourth ward, Fourth ward.

Three teams, First ward, Third ward and Fifth ward, have announced their line-ups for the opening games of the grade school baseball league Thursday. David Rosenthal has been chosen captain of the Lincoln nine. William Vorbeck will head the Zion Lutheran squad, and Edward Burk will lead the St. Mary team.

The line-ups as announced follow: Third ward—Lawrence Booth, pitcher, captain; George Christensen, catcher; Percé, short stop; Hammer, center field; Whitman, third base; McCullough, first base; Hornbeck, right field; Krueger, sub.

First ward—Clarence Horn, second base; Wadsworth, catcher; Crowe, pitcher; Tock, first base; Kase, short stop; Klumb, third base; Gallagher, left field; Schweiger, center field; Bachall, right field; Lutz, sub.

Fifth ward—Sorg, pitcher; Carlton, captain; Stark, first base; Leonard, second base; Bove, third base; Clark, short stop; Rathlesberg, right field; Maurin, center field; Holcomb, left field.

Stecker Bros. orchestra has returned from a trip through the northern part of the state. The trip was made by auto.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, yellow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 10c and 25c.

350 HIGH SCHOOL GIRLS TO STAGE A DANCING PAGEANT

SPLENDID PROGRAM WILL BE PRESENTED AT ALEXANDER GYMNASIUM FRIDAY EVENING

Three hundred and fifty girls of Appleton high school will participate in the demonstration of gymnastic work and a pageant of interpretative dancing to be presented at Alexander gymnasium Friday night under the direction of Miss Marvin, head of the physical education department.

The first part of the program will include drills, marching, games and other regular work of the gymnasium classes.

"His Jester's Pleasure," an interpretative pageant in dancing, composed and dramatized by Miss Ruth H. McKenna of the expression department, will feature the program. The leading characters include Ellen Kinsman, Dorothy Lymer, Myra Buchanan, Claire Langstadt and Alice Landers. The pageant will be presented in costume.

The program follows:

Marching Tactics.
Dumb-Bell Drill.
Callisthenics.
Wand Drill.
Mimetic Exercises.
Elementary Apparatus Work.
Game-Obstacle Relay.

"His Jester's Pleasure"

King Ellen Kinsman
Queen Dorothy Lymer
Jester Myra Buchanan
Heralds Claire Langstadt.
Alice Landers.

Nymphs—Bernice Adelt, Sylvia Bendt, Mildred Butler, Ann Dohearty, Winifred Dohearty, Estelle Haggen, Elinore Hewitt, Fanny Jacobson, Annett Landers, Margaret O'Leary, Naomi Peerenboom, Virginia Pratt, Catherine Rechner, Olive Rietz, Helen Schwartzburg, Agnes Sherman, Mary Thomas, Helen Wheeler.

Nereids—Viola Anderson, Ethelyn Fewell, Mary Kanouse, Helen Koltzke, Myrtle Lueders, Marion Matz, Almer Nehls, Lottie Russell.

The orchestra will include Leora Fewell, Leona Palmbach, Olive Rietz, Elizabeth Wadsworth, pianists; Lorena Manley, William Buchanan, violin; Gilbert Stevens, William Buchanan, banjo and mandolin.

FREE TREATMENT FOR SERVICE MEN

PUBLIC HEALTH SERVICE IS REPRESENTED IN APPLETON BY FOUR DOCTORS

The United States Public Health Service has been extensively organized for the state of Wisconsin and now includes examination and treatment free of charge for all disabled service men. Four Appleton doctors are at the disposal of men in this district. They are Dr. W. J. Prawley, Dr. W. N. Moore, Dr. E. H. Brooks and Dr. R. H. Purdy.

The Home Service section of the American Red Cross here wants to get in touch with all men needing treatment. Those who apply are sent to a physician who will make a diagnosis and recommendations for occupational or social treatment as well as advice concerning the man's physical condition. There are many nervous cases, resulting from shell shock or other nervous affections. One of the greatest tasks of the public health physician is the handling of neurotic cases. Some of these require institutional care. Others have been examined by specialists and no physical reason can be found for their particular complaints. Psychological treatment is therefore needed for these cases with encouragement and sympathetic understanding.

One Wisconsin hospital is on the list of those given over to special treatment of nervous and mental disorders and is located at Waukesha.

The procedure for securing treatment is very simple and any disabled or ill service men who call at the Home Service office, First National Bank building, will be aided in getting in touch with the proper physician.

BIG DANCE APRIL 27, AT THE PRINCESS HALL, HAMPEL'S CORNERS—MUSIC BY STECKER'S ORCHESTRA—FREE REFRESHMENTS WILL BE SERVED—E. C. HICKINBOTHAM, Prop. 4-27

EQUITY TO HOLD COUNTY MEETING HERE TOMORROW

A regular quarterly meeting of the Outagamie County Union of the American Society of Equity will be held at the courthouse at ten o'clock tomorrow morning. Farmers from all parts of the county will be in attendance and it is expected that quite a number of important questions will be disposed of. On account of the high price of material it is very likely that the building of the new cold storage plant will be delayed for the present.

Charles Nimis of Waukegan visited relatives here Sunday.

BEST CONCERT OF SEASON PRESENTED BY BAND LAST NIGHT

SPLENDID MUSICAL ORGANIZATION, ASSISTED BY CLEVELAND BOHNET, PROVES REVELATION

Several hundred Appleton music lovers today are still marveling over the splendid program presented by the Ninth Regiment band, assisted by Cleveland Bohnet, famous pianist, at Lawrence Memorial Chapel last evening. The concert was undoubtedly the best presented thus far and the crowd was probably the largest, although the chapel was not filled.

Months of hard work have converted the band into one of the best organizations of its kind in the state and its program last evening would have been worthy of even the greatest of bands. The precision with which the sections took up their parts and the modulation of the tones rivalled the work of the finest musical organizations which have ever visited Appleton.

Applause which threatened to raise shingles from the roof greeted the work of Mr. Bohnet. This finished pianist, who made many friends here while connected with Lawrence conservatory of music, proved his mastery of the piano in ten splendid selections. His rendition of the "Aria" by Pergolesi, and "Concert Etude" by Rubenstein were among the finest piano programs ever heard in Appleton.

Too much cannot be said about the

work of the band. The concert last evening increased the organization's popularity 100 per cent and another concert no doubt will attract an audience which will pack the chapel. The concert was easily on par with the best musical programs that can be presented here.

Presentation of an overture from "Bohemian Girl" was accomplished in a remarkably finished manner. That selection because of careful study and a vast knowledge of technique at the musicians presented it in splendid fashion. The descriptive title "The Forge in the Forest" also was presented in a most masterful manner.

A WORLD REBUILT

By the Golden Rule not by the Rule of Gold

WHAT ARE the most precious elements in American Life?

Respect for the home? Jesus found women slaves; He made them companions. Down through the ages His Church has been the champion of women's rights and aspirations.

Respect for the man who works? It was the Carpenter of Nazareth who gave labor its great charter. "You are sons of God," He said. In that sentence Democracy was born.

Respect for property? Modern business is credit; and credit is character. All that makes property safe in the world is bound up in the reverence for law that religion breeds.

Respect for education? Who gave America her colleges? They were founded by Christian ministers, almost all of them.

On these great essentials must we build a better America, and a better world. And every one of them rests on the foundations of the Christian Church.

the Church's part in the huge task of Americanization, (3) the colleges and (4) hospitals supported by the Churches, (5) the religious training of the young, and to provide (6) a living wage for the Church's ministers.

Thirty denominations of that Church are uniting now in a simultaneous campaign.

They are uniting because the task before the Church is too great for any one denomination; because there must be no duplication of effort; no waste.

They have had the courage to survey the whole task, and to ask for a budget large enough to sustain (1) the work abroad, (2) the work at home including

The appeal is to every lover of America, to you whether you are inside the Church or out. The rebuilding of the world is a spiritual task. Faith must be the cornerstone on which the new foundations are laid true; the measuring rod by which the builders build must be the Golden Rule.

Give when the call comes to you—give with your heart as well as your pocket-book

THE HIGH SCHOOL PROBLEM

The high school situation in Appleton is one which may well engage the attention of the public. The resignation of Principal Keller is an incident which has brought about desirable publicity concerning the high school and which raises certain questions of a general character touching our educational policies. It seems that there is a disagreement between the school administrators, including the school board, and the council as to what should be done to relieve the high school of the burdens it is carrying. The former favor the selection of a new site and the erection of a separate building for a junior high school. The council seems to be opposed to this plan and to favor the building of an addition to the present high school. Discussion of the question and resolutions considered or adopted show that they have been unable to get together and compose their differences.

On the surface of things The Post-Crescent agrees with the view of the school authorities. It believes it will be much better for the city and for the advancement of education to carry out the plan which contemplates the construction of an entirely new building for a junior high school. In the first place, it would seem that the men who have to deal directly and professionally with the public are in the best position to pass upon their needs and the methods for bringing about improvement. The council is more apt to consider the question from the standpoint of material interests and economy, and these are elements which ought never to prevail if education is to be kept on the highest plane and to be most effectively provided for. Whatever is best is cheapest in the long run.

So far as building an addition to the high school is concerned, we are inclined to think it is a valid objection that this would impair its usefulness. The modern idea is not to crowd school buildings into small areas, or to give them merely breathing space, but to surround them with commodious grounds and room for accessories. Few cities today are giving less than a block to any kind of a public school, while as much as ten acres is regarded as a necessary site for high schools by more progressive cities. The city of Flint, Mich., we understand, has just paid the sum of \$750,000 for the site alone for a high school and it contemplates something like twenty-five acres. To build an addition to the high school would simply mean to crowd more school space onto ground which is already much too small and quite inadequate for modern high school purposes. To our way of thinking it would be a poor investment both for the present and the future. It certainly would not be providing for the future.

These impressions are, we think, warranted by the facts presented by the record of school board proceedings and local conditions which must be considered. There may be some phases of the question which would tend to support the position of the council rather than that of the school board, but if so they have not been brought to light and the public could be acquainted with them. This question is of great importance to Appleton and it ought to be decided soundly and wisely, and wholly in the interest of our educational advancement. We have never believed in makeshifts in the field of public improvements, and certainly not cuts which involve any considerable expenditure of money ought not to be regarded with favor in school affairs. The public should give the high school problem its closest study. A decision one way or the other will have to be made and made soon. Let us be sure that we make no mistake and that our action is broad and farsighted.

ENFORCEMENT OF THE TREATY

The allied supreme council has finally adopted the Franco-British declaration that Germany will be required to carry out the terms of the treaty of Versailles, and that in order to insure this compliance additional German territory will be occupied if necessary. In reaching this decision the supreme council appears to have met the French view almost entirely so far as treaty enforcement is concerned. It is a victory for the French attitude as disclosed in the recent controversy with Germany and Great Britain over the Ruhr valley incident and all that it signified.

Enforcement of the military features of the Versailles treaty are of special importance to France. Moreover, it is of great concern to her that in the first few years of peace Germany be prevented from re-establishing herself as a military power. Germany can restore her strength in this respect more easily and more secretly on land than on water, and Great Britain has less to fear from land than naval preparation. It is therefore necessary to France that she have the fullest protection the treaty affords until a permanent government is set up in Germany and the political policies and military tendencies of that country are definitely established.

While it is impossible for France to accede to amelioration of the treaty in these respects, there doubtless are economic concessions to Germany which Great Britain may be expected to favor and which can be accepted by France with safety and satisfaction. These will be of a character presumably which will enable Germany to hasten her restoration to solvency and economic independence.

It is essential to the peace of the world and to the sound administration of the treaty that Great Britain and France retain the accord which brought about the decisions of Versailles. Guarantees which safeguard French interests politically are more vital than those of an economic character, and this is particularly true in the absence of a league of nations with American membership. While the action of the San Remo conference may appear to be a hardship upon Germany, that is only relatively true and this hardship will disappear to a large degree if not entirely whenever it is proven that Germany definitely and finally abandons all hope of reviving militarism and turns to responsible republican government.

BOYCOTTING POTATOES

The boycott on potatoes which has been started in various cities and communities is being enlarged into a national one, or at least efforts are being made to that end.

That is all right, of course, but there could be no surer way to wipe the popular spud off the earth. Farmers have at least one advantage over manufacturers—their plants are susceptible to a change of production on short notice. If they hear reports that potatoes are to be widely boycotted they will not take a chance on planting potatoes this spring. Then there will be few to harvest in the fall and the boycott will become a sort of potato lockout.

Even if the move for a national boycott fizzles it could do considerable harm before its effect can be counteracted, for two months from now it will be too late for farmers who have heard the report of a general boycott to change their plans and plow for spuds. From the farmer's point of view a boycott would be of no great consequence. He might turn to beans, sugar beets, corn or some other cash crop, or seed his land and raise beef. Whatever he raised he would find a ready market for under present conditions.

A more sensible way to serve the consumer's interest would be for each family to use potatoes very sparingly when the price becomes abnormally high and supplement them with rice, cornmeal, more bread and other starch-bearing foods. Reduced consumption would lower the cost to the individual without driving a vital article off the market for a long time.

The Terrible Turk

For 800 years the Turk has proved himself, in the words of Gladstone, "the one great anti-human specimen of humanity." As Cardinal Newman described him, "the anti-Christ among the races of men." The history of the Turkish Empire in Europe and Asia alike is one long record of wickedness and destruction.—C. A. McCurdy in The Independent.

Stockholm.—The Riksdag has passed a bill permitting Swedish princesses to marry outside the ranks of royalty. The measure, amending the old royal marriage laws, merely stipulates that no marriage shall be allowed without the knowledge and consent of the King.

Confessions of a Bride

(Copyright, 1920, by The Newspaper Enterprise Association.)

I Doubted That the Marriage of Chrys and Certeis Was a Fraud

"Chrys is an extraordinary woman in many ways. She is more restrained and better poised than most of her sex. But she is human enough to find some revenge for that mock marriage." I told myself. Chrys had had many incentives for falling into that trap. Certeis was famous in his profession; he was Daddy Lorimer's business associate and best friend; when he felt that fate was closing in, he asked Chrys, as his best friend's daughter, to wear his name and assume the right to claim his estates in case of his death.

He asked nothing more. When I reviewed the reasons why he had persuaded her to go through the hasty ceremony, they seemed plausible and I was convinced that the ceremony was legal and that Martha Palmer's informants had lied to her. It was all very confusing. Certeis had exacted nothing from Chrys. She had never been his wife. I knew the reason. The man had loved me for years and had wanted no other woman. He was an idealist, one who had acquired his idealism after being a devotee of beauty for years. He was weary of hap-hazard and transient romances when he first met me. He had wooed me furiously—he had frightened me, in the months preceding my engagement to Bob.

And he had never stopped loving me. He had proved that a hundred times since my marriage. More than once he had seized some chance to tell me so. He desired to serve me in any way. By marrying Chrys, he conferred his titles and castles—his most precious possessions, upon her—and thus added his portion of grandeur to the family of the girl he loved.

It all seemed quite improbable when I considered the nature of man, nevertheless, I had to remind myself that when Chrys was in Mexico, Certeis had caused Dame Camilla to throw her into a deep sleep in order that he might not be expected to show any tenderness upon her.

I doubted that her marriage was a fraud. Yet Martha had said so, and we had cabled Chrys in order that she might meet Certeis in Honolulu on any basis she preferred. There was no sense in my worrying about what Chrys was going to do in far off Honolulu. But since we at home had sowed the seeds of revenge in her heart, my own was sorely troubled about her.

The next letter in the pile which had come from Honolulu was in Katherine's beautiful writing.

"Chrys and Certeis appear to be good friends," she wrote. "Chrys is amiable, but only that. The situation is hard on her. It is my own fault. She has told me about the humiliation she is living under. I begged her not to let Certeis know she has discovered the truth. I implored her to keep still until we leave this place. She has complied and I am grateful for she is so furious! A volcano of emotion is smothered in her breast, but since she has promised I feel sure that she will not take her revenge on a sudden impulse."

"Chrys will never make a scene," I said to Bob. "She will achieve her end—even her revenge—in a dignified manner."

"She thinks she is a philosopher—but she isn't," Bob replied. "She can never let consequences work out to the end. She herself would admit that fate is unescapable and inexorable—just what the Greeks tried to tell in their dramas, centuries ago. Revenge will shape itself. Chrys ought to know that."

But Chrys played her part in her own strange way. And it was her insatiable need to plan her own revenge which tangled the plot and finished this episode suddenly. And turned it into a tragedy for some of the plotters.

(To Be Continued)

TOAD-IN-THE-ROAD

Top o' the morning, Toad-in-the-road!
With your wondering, wicked eyes,
And his tongue shot out as he flopped about;—
"It's a wonderful day for flies."

Top o' the morning, Snake-in-the-grass!
The grass by the rainy roads,
And he flashed a flang as he hissed and sang;—
"It's a wonderful day for toads."

Top o' the morning, Boar-in-the-wood!
Whose muzzle slavers and shakes,
And he tusked the flesh through a scaly mesh;—
"It's a wonderful day for snakes."

Top o' the morning, Soul-in-the-flesh!
Whose weapon spits and roars,
And the bullet sung in exultant tongue;—
"It's a wonderful day for boars."

Top o' the morning, Call-of-us-all,
Checking the dusty scrolls,
And your sicle sweeps as somebody weeps
"It's a wonderful day for souls."

Top o' the morning, Toad-in-the-road!
Who knows what the design?
But surely the fate of little and great
Must make you brother of mine.

DON'T LET YOUR IMAGINATION GO TO SLEEP

(By Roger W. Babson)

Everything, from needles to locomotives, is subject to improvement. Everything, from foot-stools to fire engines, offers an opportunity for an improvement and the reward the world pays for new ideas.

Moreover, every one has a chance at it—every one's ideas are individual. They are his own and distinct from any others.

We all have that magic quality of imagination. We were born with it, and displayed it to a marked degree as children. Since then we've kept it pretty well covered up.

We have let it go to sleep and gather dust. But it's there just the same and can be developed, just as a muscle can be developed by exercise.

If you want to develop practical imagination, start with fact and back up each step with facts as you go along.

Take your own job, for instance, a thing you know a good deal about, look at each process, each motion and each product—got all the facts you can about them.

Begin asking yourself questions and the first thing you know you have an idea. Stop right there and back it up with fact. See whether it will work.

Be sure it's practical, then go to the next step. I know a man who has made 14 successful inventions. He did not start out to invent anything, he was just developing his imagination for the fun of it.

TWENTY-FIVE YEARS AGO

Tuesday, April 30, 1895.

Mrs. James Canavan was seriously ill. The Elm street fill was progressing rapidly, the earth used being taken from the excavation for the foundation of David Hammel's new sales stables.

The body of Dr. Charles Dixon, formerly of New London, who left Eagle River the previous fall on a day's hunting, was found in the woods near the state line.

The water in Fox river was nearly four feet below the crest of the upper dam, which was the lowest ever known.

F. W. Finkeneller died at the age of seventy-one years.

The workmen employed by Peter Leonhardt in excavating for the foundation of David Hammel's new sales stable, went out on a strike. They had been getting \$1.25 per day and demanded an increase to \$1.50.

Bids for the new buildings at the fair grounds were awarded the night previous. The total cost, which included the exposition building, grand stand, barn and judge's stand, was to be \$3,250.

Landroll Cottrell of the Waverly treated his guests to brook trout, the first of the season.

The Rev. George T. Trever delivered the first of a series of six lectures at the college chapel, his subject was, "The Old Religions."

A crew of twenty linemen which was stringing the line of the Postal Telegraph company from Milwaukee to Green Bay, arrived in Appleton.

Wallace Dearing, city clerk, was the only one of the Mexico city officials who responded to the call of the League of Women Voters Saturday and appeared before them to give an account of the duties incumbent upon him.—Mexico, Mo., Evening Ledger.

DIFFERENT DAYS

In Flanders fields, in hallowed ground,
The hero crosses still abound,
They mark the graves of those who threw
To us the torch, that we renew
The task they gave their all to do;
To hunt to earth the Hun hellhound,
That Prince of Peace might yet be crowned
'Neath God's own blest Red, White and Blue,
In Flanders fields.

'Tis well you sleep, oh, heroes, sound,
For different days hath time brought round,
Our hand withdrawn, world's peace askew,
We've not kept faith we pledged to you
Who rest, each 'neath a sacred mound
In Flanders fields.

GLYCERINE MIXTURE

PREVENTS APPENDICITIS

Simple glycerine, buckthorn bark, etc., as mixed in Adler's-ka, removes all foul, accumulated, poisonous matter from BOTH upper and lower bowels and prevents appendicitis. Relieves ANY CASE gas on stomach or constipation. The INSTANT pleasant action of Adler's-ka surprises both doctors and patients. A business man reports great benefit from a long standing case of indigestion and sour stomach.—F. G. Walker, druggist, adv.

Health Talks

By WILLIAM BRADY M.D.
NOTED PHYSICIAN AND AUTHOR

Dr. Brady will answer all signed letters pertaining to health. Writers names are never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped, self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual cases cannot be considered. Address Dr. William Brady, in care of this paper.

Autobiography of a Plain Baby—17. Irresponsible Motherhood.

Those pitiful defects of nutrition known as "marasmus," "malnutrition," "athrepsia" and similarly unpleasant names, are really due to poverty in some cases but far more often they are due to irresponsible motherhood, as my father calls it. In his practice he says that irresponsible motherhood is one of the greatest obstacles he has to contend with. By irresponsible motherhood father means mothers who assume they have the right to experiment on their own babies and to permit any casual caller or acquaintance or corner druggist or "practical" nurse to experiment on them.

The most deplorable error into which these easy-going doctors and irresponsible mothers fall is the belief, that any so-called infant food, which happens to "agree" is the proper food for the baby. No one would for a moment assume that because beef broth or pickled pears happen to agree with an adult the adult's diet should consist of beef broth and pickled pears. But this kind of reasoning goes for the baby!

Many of the proprietary foods are so loaded with sugars or starches that they quickly produce obesity in the baby—fat, pale, anemic fat. And so abnormal is the popular conception that many parents actually welcome the appearance of this disease state in their babies. Why, so popular has obesity become among the more ignorant classes that a normally nourished baby, one weighing what a baby of his age should weigh, is deemed "frail."

The indispensable accessory factors in a baby's food are known as vitamins, and without them a baby cannot possibly grow and develop normally. Fresh milk is rich in vitamins. Fresh meat broths, fresh fruit juices and fresh vegetables cooked and strained through a sieve, also contain more or less vitamins.

Intelligent parents will seek, and follow to the letter, the physician's advice about infant feeding, at regular intervals throughout the first year. Irresponsible parents will accept any old suggestion from any old wisecracker who happens in.

Toothpicks at Biltmore; Hash at Childs

Lost—At Biltmore hotel or in taxi to Childs, Columbus circle, brown flexible seal wallet, gold corners, moire lining.—Ad in New York Times.

QUESTIONS AND ANSWERS. Alligator Skin.

A few months ago you published a recipe for alligator skin. I am a great sufferer and meant to have it prepared, but lost the clipping. Will you kindly reprint it? (Rev. A. S. W.)

ANSWER—Reserve 40 grains Glycine or Glycerine, 1 ounce Cologne water, enough to make 4 ounces. Apply once a day, after washing and before the skin is quite dry.

Lady, Lady, Have a Heart.

I would like to have your monograph "How to Play Old Lady Nicotine." Further I would like to ask if there would be any danger to a man of 70 years in giving up smoking. I have suffered for forty years with the douloureux, and sometimes for weeks at a time I could do nothing but smoke now and then—couldn't even talk to my wife. Smoking doesn't seem to affect my nerves; you see by my writing that I have a pretty steady hand. But my wife I always enjoy the piquant humor as well as the sound teachings of your health talks. (Rev. B. J. A.)

ANSWER—Wives! They are hard to please. If I were seventy and had suffered forty years trying to talk with my wife—I mean from the douloureux, blessed if I'd give up my affinity. Lady Nicotine is no person for youths to cultivate, but when a fellow is grown up to his full three score and ten he has a right to a whole flock of pipes and ash trays in every room, say I. Wives! Was ever a wife quite content? You are welcome to the monograph, of course, but just between friends, I advise you to present it to some callow fellow of forty or fifty who may get some good out of it.

There is No Secret Remedy.

My husband is a constant chewer of tobacco. I am sure it is the cause of his loss of weight and increasingly irritable disposition. Is there any remedy which will help to rid him of the habit? Would you advise giving him a secret cure in his coffee? (Mrs. S. L.)

ANSWER—There is no secret remedy which can safely be administered. If the man is not lost to all sense of decency appeal to any traces of such sense there may be left and perhaps he will be willing to be rid of his filthy habit. Send a stamped self-addressed envelope for "How to Play the Old Nicotine," which gives a formula for a substitute plug and other suggestions for the breaking of the habit.

Awaiting Sho

"Aren't you afraid to encounter the perils and the pitfalls that await she who braves the glamour of the footlights?" we continued.—Interview in New York Globe.

Greater Pride in Your Home

You can't help taking a greater pride in your home when it's spick and span in a brand-new coat of

J. Ulman, et. ux., east 50 feet of lot 17, block 64, Second ward, consideration, private; Merton Fulcer to Edward Fulcer, land in Hortonville, consideration, private; Kimberly Real Estate company to Albert DeBruin, land in Little Chute, consideration, private.

SYLVIA BENDT PLAYS LEAD IN CLASS PLAY

Rehearsals for the senior class play are being held daily at the high school and the performance will be given at Appleton Theatre May 19.
"The Girl" is the title of the play, with Miss Sylvia Bendt playing the title role. Harry Ahlquist takes the other leading role, and John Woehler has the part of the villain.

OBITUARY

J. L. ROHLF.
J. L. Rohlf, street commissioner from 1907 to 1910, died of a complication of diseases at an early hour this morning at his home, 905 Superior street, after a year's illness. He was born in Germany 56 years ago and came to this country in 1896, locating in Appleton, where he made his home continuously until his death. His wife died eighteen years ago.

The decedent is survived by five children, Mrs. A. M. Ries, Helen, Elsie, Alvin and Lora, all of this city. He also leaves two sisters, Mrs. William Rahlmow of Center; Mrs. Fred Leverenz of Marlon, and one grand daughter, Margaret Ries.

The funeral will be held from his home at two o'clock Thursday afternoon and from Riverside chapel at 2:30 o'clock. Services will be conducted by the Rev. R. E. Ziesemer. Pallbearers will be John Bartels, August Bohl, Herman Kamps, Charles Freiberg, Henry Horn and Louis Tiedt.

FLEMING FUNERAL

The body of David Fleming, who was found dead in his bed at his room at 696 State street, was taken to Clyman this morning, where the funeral will be held. It was accompanied by Attorney F. W. Grogan and two cousins named Boyle, one from Milwaukee and the other from Chicago, who arrived here last evening.

MARGARET COMMONS

Miss Margaret Commons, about 36 years old, daughter of Owen Commons, a former Appleton resident, died Sunday at Chisholm, Minn. Mr. Commons made his home here thirty years ago.

Funeral services will be held at St. Mary church, Menasha, tomorrow morning. Burial will be at St. Mary cemetery, Appleton.

Appleton, Wisconsin

MEMBERSHIP DRIVE OF GAME SOCIETY IS OFF TO START TODAY

MORE THAN FIFTY MEN WORKING
TO SECURE LAKE MEMBERS
FOR FISH AND GAME
ASSOCIATION

Fifty or sixty leading Appleton sportsmen are busy today and will be for days to come trying to interest 1,000 people in the welfare of Wisconsin's fish and game resources.

PROMPT RELIEF for the acid-distressed stomach, try two or three

KI-MOIDS

after meals, dissolved on the
tongue—keep your stomach
sweet—try Ki-moids—the new
aid to digestion.

MADE BY SCOTT & BOWNE
MAKERS OF SCOTT'S EMULSION
1929.

A meeting of the Outagamie Fish and Game Protective Association was held last evening at the Elk club with the sole object of starting a membership drive to make the Appleton organization the largest in the United States. It is not the membership fees that are desired so much as a citizenship backing that will have enough power in this state to demand legislation that shall properly take care of the game resources which amount in millions of dollars every year. License fees charged sportsmen should rightly be used for fish and game propagation, and the voice of 1,000 Appleton men coupled with that of other cities ought to be sufficient to move a legislature into action, leaders in the movement said.

Three speakers, A. H. Krugmeier, Louis Bonini and T. A. Gallagher presented the whole matter to members who attended and explained details of the membership drive. Each member is to call during the week with the idea of gaining each as a member of the association. Meetings will be held later to check up results and re-allot the names of those who have not joined.

ZIONISTS REJOICE OVER INDEPENDENCE GRANTED PALESTINE

CELEBRATION TO COMMEMORATE
FREEING OF HOLY
LAND WILL BE STAGED
IN NEAR FUTURE

Appleton Zionists were rejoicing yesterday over telegrams received from the New York headquarters confirming the British mandate over Palestine as authorized by the allied nations at the San Remo conference. A big celebration is to be arranged but the date is not yet announced. Local Zionists plan to do their part when the event is arranged.

Further reports received today state that at the recent allied conference at San Remo a decision was arrived at to make Palestine a Jewish homeland. This arrangement was made a part of the peace treaty with Turkey and frees the Holy Land from Turkish rule and oppression.

Large sums of money have been raised in Appleton either by voluntary contributions or through social events, according to A. L. Kiss, chairman of the local committee for the Palestine Restoration fund. The interest manifested here together with a like sentiment throughout the nation and backed by liberal financial support has at last brought the desired end. Jewish people in all parts of Europe suffered terribly under war conditions and the rehabilitation of Palestine will give them a land to migrate to and free themselves from starvation and oppression. No efforts will be spared here to make the rejoicing complete when the plans are announced from the Jewish headquarters in New York.

BANTA COMPANY ADDS
TO CAPITAL STOCK

The George Banta Publishing

company. Monasha has filed an amendment to its articles of incorporation increasing the capital stock from \$75,000 to \$175,000. Of this amount, \$75,000 is common stock, and the remainder preferred. George Banta is president, and R. E. Thickens, a former Appleton man is secretary of the company.

MUST CEASE DUMPING RUBBISH ALONG STREETS

The street department is greatly annoyed by a custom which some people have of dumping their cans and rubbish along the side of a street on the outskirts of the city while automobile riding in the evening. Last night a city employee was only a short distance from an auto driver who dumped several baskets in the gutter not far from the Grand Chute town hall. It would have been much less trouble for him to have taken it to the city dump at the fair grounds where a city employee would have showed him where to deposit it any time during the day from eight o'clock in the morning until five o'clock in the afternoon. Cans are also being dumped on other streets in the city and it is the intention of the city authorities hereafter to arrest everyone caught in the act.

EQUITY DELEGATES TO ATTEND LABOR MEETING

At the quarterly meeting of the Outagamie County Union of the American Society of Equity at the courthouse tomorrow each local will select a member to represent it at meetings of the Trades and Labor council. These new members will meet with the trades council at seven o'clock tomorrow evening for the purpose of discussing questions of mutual interest. The regular meeting of the council will be held an hour later.

ZONA GALE TO SPEAK HERE THIS EVENING

Civic problems will be discussed by Zona Gale, famous Wisconsin authoress, in an address before the Appleton Woman's Club at Lawrence Conservatory at eight o'clock tonight. The program will also include several vocal solos by Winifred Willson Quinlan. The business meeting of the club will begin at 7:30 o'clock. A reception for Miss Gale will be held in Dean Evans' studio following the program.

APPLETON MAN HURT IN AUTO ACCIDENT

I. C. Clark and Byron Taylor were victims of a serious automobile accident Sunday. They left here in the morning intending to drive to Portage, where Mr. Clark planned to visit his parents. Just south of Oshkosh they made a sharp turn and their car turned turtle. Clark was seated on the left and was pinned under the car when it overturned. His left arm was broken just above the wrist and both men were severely shaken up. Taylor was uninjured, and was able to drive the car back to Appleton. Clark was removed to an Oshkosh hospital where he is recovering rapidly from his injuries.

FORD DRIVERS TO ATTEND DRIVING SCHOOL TONIGHT

The August Brandt company will conduct a school for drivers of commercial Ford cars this evening at Eagle hall. Mr. Esslinger of the Ford factory at Detroit will be here to explain the proper method of driving cars and how to care for them. About 300 drivers are expected to attend.

Delivery of cars from the Ford factory by freight has been found impracticable under present shipping conditions and the company has arranged to send 31 men to Detroit tomorrow afternoon. They will each drive a new car from Detroit to Appleton, planning to finish the trip Saturday.

INSURANCE AGENTS IN AUTOMOBILE WRECK

Automobiles driven by C. C. Baker, Appleton representative of the New York Life Insurance company, and Earle Murray, Green Bay agent for the Northwestern Life Insurance company, collided on the Green Bay-De Pere road about 5 o'clock Sunday afternoon, resulting in slight damages to both cars. The wheels and windshields on each car were smashed, but no one was injured. Two friends were riding with Mr. Baker when the accident occurred. Mr. Murray was driving alone.

SPEAKING CONTEST AT HIGH SCHOOL TONIGHT

Ten students will compete in the third extempore speaking contest at the high school tonight. The contest is under the direction of B. W. Wells of the history department.

Winners of tonight's contest will be eligible to take part in the final event Thursday night. Winners in class A and class B will also compete. Prizes will be awarded to the school champion and the runner-up.

FONDY HERE TONIGHT FOR VOLLEYBALL GAME

The fur is expected to fly when Fond du Lac and Appleton V. M. C. A. volleyball teams meet for their return battle at the local gymnasium at eight o'clock tonight. Appleton was victorious in the previous contest.

Led by Captain George Packard, the All-Stars are confident of slipping another win over the invaders. The locals boom up as the strongest aggregation in the state and are ready to meet all challengers for the title.

Chicago. — Manufacturers today declared the strike of outlaw switchmen in the Chicago district has tied up raw materials and virtually prevented shipments of finished products. Railroads claimed freight was moving ninety per cent of normal.

WIDOW AND 4 CHILDREN HAVE NO PLACE TO LIVE

A pathetic case has come to the attention of the Red Cross Home Service office and it appeals to the people of Appleton for aid.

A widow with four children, the oldest of whom is 13 and the youngest seven, has been notified to vacate her present place of residence as the

property has been sold. She has tried in vain to find a place into which to move but has been unsuccessful. The second eviction notice has been served on her. She now sees no other solution of her dire perplexity than to send her little ones to the Home for Dependent Children at Green Bay, much against her will. She receives a mother's pension of \$30 a month and earns the remainder of her family support, about \$20, by washing and cleaning.

Any person knowing of a house or a few rooms that this family might rent is asked to communicate with the Home Service office. The office also requests that it be notified of other opportunities in the same line of work which will pay her a better remuneration than she receives now.

Embroidery imported from Switzerland during March amounted to \$2,100,000, as against \$1,800,000 in February and \$800,000 in March, 1919.

NEXT WEEK

The New and Original always interests you, Madam Housekeeper. Therefore, next week come and witness our latest presentation—

DUPLIX ALCAZAR

Nothing commonplace about this wonderful range.

Originality finds expression in its classic design and in every detail of its mechanical construction.

It will be demonstrated at our store all week. Souvenirs free

FUTURES EASIER ON THE MARKET TODAY

SLIGHT REDUCTION IN PRICES FROM OPENING QUOTA. TIONS IN GRAIN FUTURES

By United Press Leased Wire
Chicago—Grain futures were easier on the Chicago board of trade today. There was some reaction from the burst of buying yesterday coupled with forecasts of better weather and a tendency to watch the demand for cash grains. Provisions sank in sympathy with the grains.

May corn opened late at \$1.72 1/2 and remained unchanged. July corn, after opening 1/4 up at \$1.66, sank 1/4. September corn, down 1/4 on opening at \$1.59, lost an additional 1/4 before noon.

May oats opened 1/2 up at \$1.00, but later lost 1/4. July oats also lost 1/4 in later trading after opening unchanged, at 90.

APPLETON MAN SELLS PURE BRED SIRE FOR \$20,000
W. H. Steffensen, proprietor of Good Hope farm, Fourth ward, has sold a pure bred Holstein sire, to E. N. Murphy, Green Bay, for approximately \$20,000. The animal was delivered to Green Bay today.
Mr. Steffensen purchased the sire about 15 months ago, when it was about four months old, paying about \$5,000 for the animal. He is regarded as one of the finest specimens in the middle west and the price received by Mr. Steffensen is the largest ever paid for a sire in Outagamie county. The animal is known as Sir Ormsby Aberkirk Korndyke and is a brother to a sire which Mr. Murphy recently purchased for \$25,000.

MUST ACT AT ONCE TO RELIEVE CONGESTION IN THE HIGH SCHOOL

(Continued from page 1)

graduation when the eighth grade is completed and making it appear that that is the end of a prescribed course when it is not, many of the pupils who now leave school at that point would remain. There is too high a mortality rate at the present time. The junior high school would give them the schooling of the freshman grade of the present senior school beside the work of the seventh and eighth grades. This familiarity with high school work would lead many to remain for the other three years and complete their preparatory education.

District Schools Overtaxed
Another proposition that presents itself for the consideration of the superintendent is the growing need for larger quarters in several of the district schools. None are overtaxed now but at least three are filled and any added enrollment would mean additions to the buildings. Rather than fix up each building, it would be more economical and satisfactory to let a junior high school absorb the pupils of the upper grades and solve the problem once for all in this way, Miss Morgan said.

"Should the building be erected now or should the city wait until after materials decrease in price?" Miss Morgan was asked.
"Something must be done now," was her answer. "I feel that the building of more barracks would be only a waste of money. The junior high school can wait if necessary, but we cannot neglect the overflow from the high school any longer. I say that we must do something immediately. I don't know what the board of education will decide if the city council again puts the matter up to it for solution, but I shall certainly express myself in favor of a separate building such as I have described."

Hantschel Wants Addition
John Hantschel was emphatic in his declaration that the plan of building additions to the present building should be adhered to. He has the interests of the taxpayers at heart as well as the school needs, according to his statements and would like to learn how the general public feels about the high school problem. He would guide his decisions largely along the lines of popular approval.
"Our present building was originally designed so that additions could be built at the east and west ends without spoiling the appearance of the structure and I see no reason why we should go to the expense of acquiring land elsewhere," he stated. "Of course, we could not build one addition and have it look like anything, but I say we should start building one on the east right away and plan for the west one later. I would not care to see any more barracks erected. The present one is un-likely enough on the school grounds and gives a bad impression to the travelling people who pass by. We must start regardless of high costs, because it is a question now whether we can get the building up in time for use next winter."

"I believe the cost of each addition was figured at \$150,000," he added, "but since we got those figures the price has become nearer the \$180,000 mark."

Favors Junior High School
Questioned about a junior high school, Mr. Hantschel stated that Appleton must some day come to it. He sees in the junior high school the solution of keeping children in school for a longer period than now, who a graduation formally at the finish of eighth grade work. Its being able to introduce shops, laboratories and facilities into a school set aside for seventh and eighth grade and freshmen would, an elementary training could be given that would be valuable to those who do not take the high school course. He would some day like to see a new senior high school erected on Lawrence St. site, which he thinks admirable, and let the old building be used for the junior school. The Lawrence street site was wanted for school purposes before he was born, he stated, and there has always been argument from all wards as to the location of any proposed junior high school. The difficulty in obtaining it now would be the failure to agree as to location. The Fourth ward is a natural center of school population and consideration should be given to that fact.

Tax Burden Too Heavy
It was further pointed out by Mr. Hantschel that each addition to the present building would accommodate 400 to 450 pupils, making it possible to handle 1200 or more in all. The overflow would be taken care of in one addition and the school would be large enough for some time to come. "People are jumping on the backs of the city officials now," he said, "because of the tax burden and I would favor as economical a solution as possible." He had no figures at hand with which to arrive at the difference in costs of the additions and the separate units proposed by others.

"If this matter is put up to the board again by the city council, my decision will be in favor of additions as originally provided for by the architect who designed the high school," he concluded.

Would Like To Wait
W. H. Hackleman's views were along lines somewhat similar to those held by Miss Morgan except that he prefers the site east of the present building. He does not want the city to build additions and encounter a lot of unlooked for expenses and make the school a worse fire trap than it is now. Building should be deferred if possible, he also believes. "I regard the taxpayers' money in the same light I do my own," he said. "This work has to be done. There is no getting around that fact. If we could set some place for study rooms and class rooms and could get along for the present, I would be in favor of waiting. If we had to wait a couple of years it might be better than jumping into it and making a mistake."

Mr. Hantschel agreed that the site on Lawrence street was the best but that he was in favor of the east block because it could be bought for much less than the other. The stumbling block came when the school board figured on the assessed valuation of block nine and then found its value was much greater when the council came to take up the matter of purchase. It was assessed at \$27,000 but would cost more than \$50,000.

Get Better Training
Erect a building on the block east of the present building that would be ample for a junior high school also, was Mr. Hantschel's suggestion. The problem of the overflow would then be taken care of and the other matter could be solved in its due course. He was in favor of the junior high school because he believed there should be no graduation from the eighth grade and that no child should be offered any encouragement to leave school at that time. They take more interest in the matter of attending high school if they are given the freshman training in the junior high school.

Another argument for the junior high school is that the combined equipment possible there would place the caliber of training far above what any district school could give. An objection to junior high school, on the other hand, has been that most every ward wanted the building.
"If we are going to put in a junior high school," he stated, "it ought to be done right. It cannot be done by putting on an addition. When we start to erect additions the floor level would not be the same as in a new building and the gymnasium would probably have to be put in the attic instead of in the basement as now. There would be other alterations. The boiler room should be removed and put in a separate building. It is bad enough to have it under the building now, with the danger of fire and explosion, and I would oppose building any additions unless the boilers were removed. By the time we were through with it, we find that we would have been better off if we had built a new building."

"We have threshed this matter out the best we could," he added. "We really don't know what is going to be done next. I am willing to let the council take the initiative now, but if the matter comes to us for a decision, I will urge a new building on the site east of the present building."

GRADE LEAGUE UMPIRES MEET FOR DISCUSSION

Umpires of the grade-school baseball league will meet with Coach Ike Beyer of Lawrence college tomorrow for a discussion of the new rules. Twelve high school older boys are members of the umpiring staff of the school league, the opening game of which will be played Thursday afternoon.

APPLETON WINS BILLIARD BUT LOST POOL GAMES

Appleton won the second game of the three cushion billiard series from the Monday night when Carr and Palmer of the local team defeated Fismen and Hammett of the northern city 50 to 24. Ontario won the match pocket billiard contest, 100 to 82.

Children's Gingham Dresses, 2 to 6 years. Value \$1.19. Sale **89c**

NEWS OF OUTAGAMIE COUNTY AND WISCONSIN

CALL FOR SPECIAL SOLON MEETING NOT TO TOUCH RAIL FARES

GOVERNOR IS NOT YET READY TO ANNOUNCE CALL FOR EXTRA LEGISLATIVE GATHERING

(Special to Post-Crescent.)
Madison, Wis.—Despite repeated reports to the contrary, the call for a special session of the legislature, if one is issued, will not mention the railroad passenger fare question. That positive statement was made today by a state official who claimed to be in position to know what he was talking about.

"The Wisconsin statutes now provide for a passenger fare of 2 cents per mile," declared the official. "Under the new federal law, under which the railroads were returned from government to private control, it was provided that the existing rates should remain in effect until changed by proper authority, and that no rate should be reduced before Sept. 1, without the consent of the Interstate Commerce Commission."

"The only authority in Wisconsin for changing the passenger rate is the legislature. The Railroad Commission has absolutely no jurisdiction over passenger rates in Wisconsin under the statute. It would be foolish to think for one minute that the legislature would vote to increase the rate or to place it lower than 2 cents, and as that is the legal rate in Wisconsin today, and it is presumed will be after Sept. 1, there is also

intely no occasion for bringing the matter before the legislature at this time."

Just what the call for the special session will contain no one knows. Governor Philipp has mentioned several matters which are being considered, but before they are placed in the call it is safe to predict that they will have been thoroughly investigated by the executive and that he will have his plans for action complete before he calls the legislature in extraordinary session.

There are some in the capitol who still doubt if a special session will be held. If the special re-investigating committee in Milwaukee can recommend legislation which will put a stop to rent profiteering, Gov. Philipp will undoubtedly call the legislature together to act on it, but many doubt if such a law could be passed or if it is passed if it would be constitutional.

Legislation looking toward a four-year medical course at the University has been mentioned, but it is extremely doubtful if anything definite along that line could be accomplished at a special session. However, if a special session is called it is likely that the medical course will be included in the call so a special inter-committee can be appointed to look into the matter and report at the regular session next winter.

Again if a special session is called it will probably include appropriations for the various charitable and penal institutions whose funds are now practically exhausted. However, the emergency board can make the necessary appropriations if need be and it is doubtful if a special session would be called for that express purpose, as there is plenty of money in the treasury.

An amendment may be offered to put teeth into the marketing bill by

giving the Division of Markets authority to license food dealers, as was done by the federal government during the war. But that would be such an important matter and would mean such a fight it is doubtful if such an amendment could be passed at a special session, for the members of the legislature do not like to remain in session at a special session more than two or three days, and especially at this time of year when the farmer members are so busy.

CALL OFF WAUSAU FAIR FOR THE YEAR

FAILURE OF COUNTY BOARD TO AID IS REASON FOR SUSPENSION, DIRECTORS AVER

Wausau, Wis.—There will be no county fair in 1920. This was decided at a meeting of the board of directors. The reason given was that the grounds on which the fair was to be held were not in suitable condition and that the grandstand is considered unsafe. The association could borrow the money to make the necessary improvements but it was decided it would be unwise to mortgage the property, as the fair has only about played even in the past and the officers wanted to take no chances on losing the grounds through foreclosure.

Closing Is Only for 1920
The closing of the fair, it is hoped, will be only for this year. A plan had been worked out to transfer the grounds to the county and have the county make the necessary improvements, but the county board rejected the proposal. The grounds are estimated to be worth at least \$100,000, as the park is said to be the prettiest in the state.

The county was asked to give the agricultural society \$10,000, invest \$6,000 in six years in a grandstand and stock pavilion and dedicate the park perpetually to the use of the people of the county. The city had agreed to furnish a caretaker, and C. C. Yawkey had promised \$20,000 to beautify the grounds.

In addition to this, D. L. Plummer had offered \$10,000 for a new agricultural hall, and other gifts were certain. The only reservation made by the fair society was for the dates for the annual fair.

Offered \$100,000 for Grounds.
It is expected the proposal will be renewed at the next meeting of the board and that it will be accepted until that is done there will be no fair in Marathon county.

The agricultural society has received an offer of \$100,000 cash for the property, but has refused.

DARBOY WANTS POST IN THE AMERICAN LEGION
(Special to Post-Crescent.)
Darboy.—L. Hugo Keller of Appleton, a former lieutenant in the 42nd Division, has accepted the invitation extended him by Darboy soldiers to address the veterans of the great war at Darboy at Asbauer's hall Thursday evening, April 29. Topics concerning the legion and an open discussion will feature the program. A post will be organized at Darboy and a membership drive will be launched. It is the first attempt to organize a legion post in towns of Harrison and Buchanan.

LETTERS INDICATE MENTAL CONDITION

OFFICERS AT WAUPUN HOSPITAL READ LETTERS TO TEST MENTALITY OF THEIR PATIENTS

Waupun.—Insane people, as well as those not mentally afflicted, often get themselves into trouble by writing incriminating letters.

One of the favorite diversions of inmates of hospitals for the insane is writing letters, and, contrary to a general impression, these letters do not find a quick path to the waste basket, but are carefully scanned by the doctors and hospital officials for hints as to the mental workings of the writers. Some of the most typical are filed away with the records kept of the patients' demeanor, weight, appetite, general health, and other characteristics, forming a part of the permanent record of the case.

Often the letters are the determining factors in decisions that must be made in the case, according to Dr. J. W. Brown, superintendent of the Central Hospital for the Insane at Waupun. An insane criminal, a patient at the Waupun hospital, would have gained his liberty several years ago had it not been for letters that he wrote. Dr. Brown says:

Letters Extend Confinement
Sentenced to a short term for forgery, he was sent to another hospital for treatment. His term having expired, he convinced the doctors that he was sane, and an order was about to be issued for his return to the court which had committed him.

But, becoming impatient, he wrote letters to the judge and other persons. These letters, instead of hurrying things along, demonstrated beyond a doubt that his mind was very much out of balance.

Even now it is impossible to catch him in any mental lapse during a verbal examination, but his letters continue to show an unbalanced mind. He has not lost faith in himself, but writes to many persons whom he thinks might have some influence, urging that he be given another examination as to his sanity.

Thinks Self a Psychologist
He also imagines himself to be a great psychologist, and writes to the presiding judges of many famous trials, such as the Stapleton case and the Waupun riot case, explaining to the judge the psychological aspects of the cases in which they are about to sit.

Of course, letters of this type get no farther than the hospital office, though letters to relatives or friends go through after being read.

Cocoon Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Multisilf cocoon oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Multisilf cocoon oil shampoo at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

LEEMAN BOY PATIENT IN MILWAUKEE HOSPITAL

(Special to Post-Crescent.)
Leeman.—Mr. and Mrs. Myran Ames and daughter Joyce returned Tuesday from Oshkosh. They had been visiting relatives there.

The Ladies' Aid society met at the church last Wednesday. The men improved the time by tearing down the old church sheds. They intend to build new sheds this summer.

Word was received here from William Diemel at Milwaukee that his son Clifford is getting along nicely. Clifford submitted to an operation on his leg.

Miss Charlotte Carpenter entertained a few friends at her home Sunday evening.

A few young people attended the dance at Mike McCrone's hall Friday night. Mr. McCrone has built an addition to his hall, which gives more room for dancing.

The party at Mrs. E. Bowerman's home Saturday evening was well attended.

Miss Gladys Hurlbert was a Galesburg caller Friday afternoon.

Herman Schroeder was at Nichols Wednesday. He reported the road in bad condition for autos.

Orville Deimel has rented the Orlando Nagreen farm and has moved his family from Kaukauna.

BOY OF 11 IS KILLED BY BROTHER AT PLAY

Ishpeming, Mich.—While playing ball with a group of boys, William George Harvala, 11, a son of Jacob Harvala, was struck over the heart with a bat in the hands of a brother. He died before medical assistance could be procured.

ASK MONEY TO COMPLETE THE HOME AT TAYCHEDAH

Appropriation of \$35,000 will be Asked of State Legislature. When it Meets in Special Session

Madison.—The state board of control has asked Governor Philipp to include an appropriation of \$35,000 in his call for a special session of the legislature. This amount will be sufficient to complete the home for women at Taychedah, Fond du Lac county.

"It will require about \$35,000 to complete the home at Taychedah," said President E. A. Everett of the state board of control. "This amount of money will be used to connect the heating plant and to put in boilers. The last session of the legislature made an appropriation for the completion of this institution but prices have risen so rapidly that the amount of money appropriated by the legislature is not sufficient to complete the institution. After Governor Philipp calls a special session of the legislature and after the legislature votes this money, work on the completion of the institution will be started at once. We plan to have a camp of convicts from Waupun to do the work. Under such an arrangement I think the institution will be completed and ready for occupancy about December 1."

Governor Philipp has indicated that he will not be able to call a special session of the legislature until early in May. He will not issue his call until the special committee which has been investigating rents in Milwaukee has made its special reports. The governor said on Friday that he must have this information before he could issue the call. All of the measures will be drafted so that the legislature will be able to push through its work within a day or so.

More than 5,000 motor transportation lines are now in operation in various parts of the United States.

Cocoon Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Multisilf cocoon oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Multisilf cocoon oil shampoo at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

GIFT WORTH \$1,200 FOR COUPLE LEAVING TOWN

Ironwood, Mich.—Just before they started for the station to go to their new home in Milwaukee, Mr. and Mrs. F. L. Cullen were presented with a beautiful silver service, valued at \$1,200, by friends. Mr. Cullen recently resigned as manager of the Gogebic range properties of the Steel and Tube Co. of America. When friends and employees learned that the family was to leave the city they decided to give a parting token of esteem. The Northwestern station was crowded with friends of the couple.

GIFT OF \$5,000 IN WILL TO AID BELOIT COLLEGE

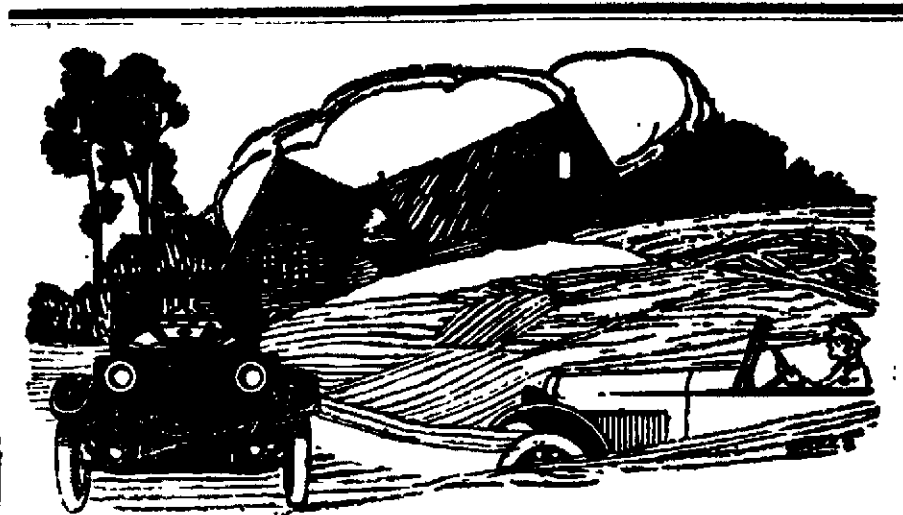

Beloit, Wis.—A bequest of \$5,000 for Beloit college is contained in the will of the late Judge M. O. Southworth. He died recently at Aurora, Ill., leaving an estate valued at \$250,000.

Preference for Buick Valve-in-Head motor cars becomes more pronounced each season—and this favoritism shown by the motor car purchaser of today has taxed the Buick factory's production to the limit.

Thousands are contented to await their turn in Buick deliveries—for Buick performance, quality, service and economy has completely won their confidence.

The five hundred thousand Buick cars now in daily operation are making Buick history. Their efficiency, faithfulness and value have established this fact in the minds of the world—"there is no substitute" for Buick Valve-in-Head quality and service.

When better automobiles are built, Buick will build them

Elderly People Have A Daily Health Problem

Stomach muscles and digestive organs slow to act as age advances

MOST people find the years slipping by without realizing it, until suddenly confronted with the fact that they can no longer digest everything they would like to eat. It then becomes their daily task to avoid what they know to be chronic constipation.

When exercise and light diet fail it will be necessary to resort to artificial means. Strong physics and cathartics, however, are not advisable for elderly people. They act too powerfully and a feeling of weakness results.

What is needed is a laxative containing effective but mild properties. This is best found in Dr. Caldwell's Syrup Pepsin which is a combination of simple laxative herbs with pepsin. It acts gently and without griping, and used a few days will train the digestive organs to do their work naturally again without other aid.

Dr. Caldwell's Syrup Pepsin has been on the market since 1892 and was the private formula of Dr. W. B. Caldwell, who is himself

past 80 years of age and still active in his profession. It can be bought at any drug store and one bottle is enough to last even a large family many months. It is a trustworthy preparation.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest-selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington St., Monroeville, Illinois.

adv.

Gluttons for Punishment

Lee Tires ask no favors of the road.

On rough country roads their tough treads travel almost unharmed over sharp and jutting points that would tear the heart out of less sturdy tires. On paved streets and boulevards Lee Tires wear down surprisingly and pleasingly slow.

If you knew how to make tires and none but the best would satisfy you, the Lee Tire is the kind you'd build.

So thoroughly good are Lee Tires that you'll get an entirely new idea of tire mileage and satisfaction from the first one you try. Let us show you why.

The Lee Tire Distributor

APPLETON Overland Co.

LEE Tires

"Smile at Miles"

The Zig-Zag Tread

Mechanically and scientifically correct for service under all road conditions. The Zig-Zag tread is a unique feature of the Lee Tire. It is a combination of the "V" and "Z" shaped treads, which gives it the ability to grip the road in all directions. This makes it the most reliable tire for all types of driving.

LEGAL NOTICE

NOTICE OF HEARING
State of Wisconsin, County Court, Outagamie County.—In Probate.
Notice is hereby given that at a regular term of the county court to be held in and for said county, at the court house in the city of Appleton, in said county, on the 1st Tuesday, during the 1st day of June, A. D. 1920, at 10 o'clock a. m., the following matter will be heard and considered:
The application of Joseph Kuborn praying for the judgment of the court, finding and determining who are the heirs of Nicholas Kuborn, late of the town of Neumann, in said county, deceased, intestate and what are the respective rights and interests of the parties, named in the petition filed herein, and of others, if any, in the title of said decedent in and to the lands of which he died seized and which are situated in Outagamie county, Wisconsin, and known and described as follows, to-wit:
All the following tract or piece or parcel of land situated lying and being in the 2nd ward of the city of Kaukauna, county and state aforesaid, and more particularly described as follows, to-wit: Lot

LEGAL NOTICES (Continued)

number Fifty (50), except the Southeast (SE) Fifty-one (51) feet; said part of said lot Fifty (50) is owned by John Boons Desautel, on the South half of the Twenty-one (21), Range Eighteen (18), as is more fully described in Volume Sixty-four (64), at page 284.
Dated, Appleton, Wis., April 19, 1920.
By order of the Court,
John Bottensok, County Judge.
Mark Catlin, Attorney. 4-19-20

NOTICE TO PROVE WILL AND NOTICE TO CREDITORS
State of Wisconsin, County Court, Outagamie County.—In Probate.
In re estate of August Zander, deceased. Notice is hereby given, that at the special term of said court, to be held on the 2nd Tuesday of May, A. D. 1920, at the court house in the city of Appleton, in the county of Outagamie and state of Wisconsin, there will be heard and considered, the application of William B. Hecker to admit to probate the last will and testament of August Zander, late of the city of Appleton, in said county, deceased, and for the appointment of an executor.
Notice is hereby further given, that at said court house, on the 2nd Tuesday of September, A. D. 1920, there will be heard and considered, and adjusted, all claims against said August Zander, deceased.
And notice is hereby further given, that all such claims for examination and allowance must be presented to said county court at the court house, in the city of Appleton, in said county and state, on or before the 6th day of September, A. D. 1920, or be barred.
Dated April 20th, 1920.
By the court,
John Bottensok, Judge.
Albert H. Krugmeyer, Attorney. 4-20-20; 5-1

SHERIFF'S SALE
By virtue of an execution, issued out of and under the seal of the Circuit Court of the State of Wisconsin, County of Outagamie and State of Wisconsin, upon a judgment rendered in the Municipal Court for Outagamie County, State of Wisconsin, on the 22nd day of December, 1918, and docketed in the Circuit Court for Outagamie County, on the 8th day of April, 1919, in an action wherein William Hecker is plaintiff, and Albert Hecker, Henry Hecker and Minna Hecker are defendants, for the sum of Two Hundred Twenty-eight and 00/100 (\$228.00) Dollars, which execution was directed and delivered to me, as sheriff and for said county of Outagamie, I have levied upon all the right, title and interest of the said defendant Minna Hecker in and to the following described real property, to-wit:—
Lots Twenty-seven (27) and Twenty-eight (28) in Block number 22 in Lenox Park Addition to the Third Ward of the City of Appleton, Outagamie County, State of Wisconsin.
Notice is hereby given, that I, the undersigned, as sheriff aforesaid, will sell the above described real property, or such part of it as may be necessary, (the whole of Lot Twenty-seven (27) to be offered

first and, if not sufficient, then the whole of Lot Twenty-eight, both before described, to the highest bidder, for cash, at public auction, at the East door to the Court House in the city of Appleton in the county of Outagamie and state of Wisconsin, on Tuesday, the fifteenth day of June, 1920, at ten o'clock a. m., of that day, to satisfy the said execution, together with the interest and costs thereon.
Dated April 10th, 1920.

PLAN CHANGES IN THE STATE BUILDING CODE

Madison—The Industrial Commission has called a meeting to discuss the advisability of modifying the requirements of the State Building Code, to permit the use of metal lumber in fire proof and mill construction. This meeting will be held at the Republican House in Milwaukee, on Friday, April 30.
Metal lumber is now accepted in the Wisconsin Building Code only for frame and ordinary construction. Because of market conditions, however, the commission is being urged to allow the use of metal lumber in better types of construction.
The state building code committee will sit with the commission at this hearing. Invitations to attend are extended to all architects, builders and manufacturers, who are interested in the proposed change in the requirements of the state building code.

TWO PAY DEARLY FOR DRINK OF WHITE LIGHT IN SUPERIOR

Superior, Wis.—Drinking denatured alcohol nearly cost Emil Anderson his life and cost Conrad Phelan about \$220. Anderson was arrested for drunkenness and became so ill that he was removed to St. Mary's hospital, where small hope was expressed for his recovery. Phelan awoke in the police station and found that he only had \$179 left of \$400 that he had when a friend offered him a drink of denatured alcohol.

Beaver Patrol—Philip Sutherland, patrol leader; Melvin Schneider.

Douglas Heyde, Donald Hyde, Richard Neller, Donald Wood, Donald McGregor.

FOR ITCHING TORTURE

Use Antiseptic Liquid Zemo

There is one remedy that seldom fails to stop itching torture and relieve skin irritation and that makes the skin soft, clear and healthy. Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, itch, pimples, rashes, blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins.

The E. W. Rose Co., Cleveland, O.

GOVERNMENT PAYS SCANT ATTENTION TO AIR PROMOTION

MANUFACTURERS ALSO SHOW NO INTEREST SINCE VAST WAR RECEIPTS WERE CUT OFF

(By Harry B. Hunt)
(Special to Post-Crescent)
Washington—The lack of any definite, comprehensive program for the development of aviation as a really important arm of our national defense is more than matched by the absence of any organized effort

among airplane manufacturers to promote commercial aviation.

With the exception of a few individuals and companies giving exhibitions, making aerial photographs and maps and providing small express and passenger services, there is little use being made of aviation by private concerns. And yet the groundwork is all completed, by the government, for a system of commercial aviation that could cover the entire country.

Flying Maps Prepared
An aerial survey of the whole United States has been made by the air service of the army, and some 1500 landing fields charted. An aerial map has been prepared locating municipal and emergency fields and giving important topographical and aeronautical information. This survey required more than 300,000 miles of flying.

The best aid to commercial aviation has been provided by the government's air mail.

Between Cleveland and Chicago the air mail accomplished a world's record of 265 consecutive 325-mile non-stop trips without a forced landing of any kind.

The big mistake that has been made in attempts at commercial aviation to date in the United States, Maj. Gen. Charles T. Menoher of the Air Service says, is that we have tried to fit commercial uses to army planes instead of building new planes to fit definite commercial uses.

Encouragement to private commercial aviation is given in the legislation now before Congress providing for a government Department of the Air. Among the other functions of that department would be the establishing of aerial routes throughout the United States and its possessions.

and cooperation with municipalities in providing airfields and landing fields to be used in common by federal, state, municipal, commercial planes not only could use these sites and private aircraft. Commercial for landing, but could procure at them gas, oil and supplies at cost to the government.

High Cost Bars Purchase
The present handicap to a widespread use of the airplane as a private conveyance is its cost. Manufacturers estimate, on the basis of inquiries received, that there are in the United States today 10,000 customers who would buy planes for private

Beginning May 1st until Nov. 1st. Dental offices will close at 1 P. M. every Saturday.

vate uses if they could be procured in the neighborhood of \$2500. However, under present cost conditions, it is impossible to build a reasonably constructed and sufficiently powered machine at a lower price than \$7500, and this price involves the use of the lowest cost engine known and no special finish.

If the government holds to a moderate aerial program—as it probably will this year—then there will be no immediate stimulus to commercial aviation.

Construction of airplanes on government account virtually has ceased, pending action by Congress.

The Postoffice Department is the only government agency now buying airplanes, and its orders are comparatively small, orders for the past six months covering only 11 planes.

The stock of planes accumulated under war contracts consists of 8554 training planes, 4844 De Havilland 4s and 112 miscellaneous and experimental planes.

Private manufacturers, after spending vast amounts in experimentation suddenly found that their ventures were bringing them heavy winnings in war contracts. Since they have "cashed in," few are willing to resume planning in the aviation game. The situation can be compared with what would have happened in the infancy of the automobile industry if all the struggling pioneers had suddenly found themselves compensated manifold for their outlays and had decided to let well enough alone.

Sulphur Vapor Bath Parlors
Dr. A. H. Wolfe, osteopathic physician—office 850 College avenue. Phone 1244. Baths by appointment, only Lady attendant.

"The Bird of Paradise"
Local playgoers will find much more than passing interest in Richard Walton Tully's charming play, "The Bird of Paradise," which comes to the Appleton Theatre two days commencing Tuesday, April 27. The play touches a virgin field, so far as the stage world is concerned, and it is probably the one worthy attempt to date to preserve in dramatic form the vanishing customs, beliefs and legends of the Hawaiians. Mr. Tully had a rich field to draw his material, aside from its unusual intrinsic value as a drama. Manager Morosco has provided a well balanced cast for the interpretation of the various roles. Miss Ann Reader, nineteen year old leading woman of charm and magnetism is to be seen as Luana, the little Hawaiian princess.

Plans have just been completed to erect in Paris the greatest trade building in the world, to be known as the Marche du Monde (World's Market).

WOMAN NOT WORRIED OVER FOOD SHORTAGE

"I have lived on toast and water for over 6 months and have been scarcely able to eat anything for the past year. I began suffering from stomach trouble and bloating 5 years ago. A friend recommended Mayr's Wonderful Remedy and since taking 6 doses I feel I am entirely restored; even cabbage does not hurt me. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and cures the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince you, money refunded. Druggists everywhere. adv.

LOST PRESIDENT'S JOB BUT NOW EARN'S MILLIONS

Charles E. Hughes Has Busiest Law Office in Country—Friends Think Defeat for Presidency Kicked Him Into Good Income

(By James Hendon)
(Special to Post-Crescent)

New York—Charles E. Hughes may not have assumed 100 per cent as a presidential candidate back in 1916, but as a lawyer, and as a money-maker in the legal field, it doesn't seem he has any serious competitors. Friends of the former Republican candidate say that his income is \$1,000,000 a year. If he really makes that \$1,000,000 Hughes is making more out of strictly legal work than any other lawyer in this country.

Hughes' present income is in striking contrast to what he received as a justice of the U. S. Supreme Court. That position pays \$14,500 a year. When Hughes was defeated for the presidency some said he made a mistake in resigning from the Supreme Court in order to run. But did he?

What really happened in November, 1916, was that the voters of this country—and particularly the voters of California—kicked Hughes upstairs into a position paying about sixty-times what his former one had yielded.

Change in Train Time
Effective Monday, April 26, 1920
WISCONSIN & NORTHERN RY.

Trains Nos. 3 and 4 will run between Appleton and Shawano only. No 3 will leave Appleton at 3:00 P. M. instead of 3:10 P. M. connecting with G. B. & W. east, and west bound trains at Black Creek, arriving at Shawano 6:45 P. M.

Train No. 4 will leave Shawano 6:00 A. M. connecting with G. B. & W. west bound train at Black Creek, arriving Appleton 9:00 A. M.

W. W. NEFF,
Gen'l Passenger Agt.,
Appleton, Wis.

The average buying power of the American farmer has increased in the last four years from \$1,600 to \$3,400 a year, while that of the city man still remains approximately at \$900 a year.

Of the total immigration over a period of several months, officials of the port of New York say, women and girls have formed not less than 60 per cent.

The first big step toward mass production in England has been taken with the organization of a \$20,000,000 combine in the British motor industry.

OBEY THE LAW

DON'T take chances! Use the McKee Standard Lens that complies with the new "no glare law" and adds class to your car. The lens is one solid piece of crystal-clear glass scientifically designed—needs no dimmers—no attachments.

It saves the light that is wasted by the ordinary window glass lens and adds it to the intense beam of light which is concentrated and projected through the horizontal prisms down close to the road bed for 600 feet ahead. And not a ray of this bright white road beam can go above 60 inches from the ground to blind approaching drivers.

Why risk your life and those of others with makeshift devices that weaken the light in order to comply with the law? For safety's sake equip your car with the McKee—the lens that protect you from the penalty of the law at the same time preventing you from accidents.

Now is the time to get the McKee Lens.

For Sale by
SCHLAFER HDWE. CO., Appleton, Wis., Distributors
and also by the following dealers:
A. GALPIN'S SONS, College Ave. & Morrison Sts., Appleton
WOLTER IMPLEMENT & AUTO CO., 624 Appleton St., Appleton
WM. TESCH, 636 Appleton St., Appleton.

McKEE Standard LENS

Made by the McKEE GLASS COMPANY, Jeannette, Pa.

Extract from law in effect May 1st.
Every motor vehicle during the period from 30 minutes after sunset to 30 minutes before sunrise must display front lamps showing white or tinted (not red) lights. When measured at a distance of 100 feet in front of the motor vehicle, and . . . 60 inches above the level surface on which motor vehicle stands . . . headlights shall not produce a light . . . greater than 2400 candle power . . . When measured at a distance of 100 feet ahead of motor vehicle and 7 feet to left of axis of motor vehicle . . . at 60 inches above level surface . . . lights shall not produce a light greater than 600 candle power.

CHANGES IN TAX LAWS FAVORED BY M'ADOO

POSSIBLE PRESIDENTIAL CANDIDATE WANTS FAIR TRIAL FOR RAILROAD SYSTEMS

Washington, D. C.—Replying as a "private citizen" to the questionaire issued to all candidates for presidential nomination by the national board of farm organization, former Secretary McAdoo Sunday night outlined his position on various propositions being agitated in the pre-convention campaign.

Present laws, Mr. McAdoo said, should be simplified and the burden of taxation "redistributed so that the men who earn their incomes by the sweat of their brows and with their brains should not be required to pay as heavy taxes as those who live in idleness and draw incomes from safe investments."

A distinction should be made, he said, between earned and unearned income.

He declared himself opposed to tax-free bonds.

If after a two year period of private ownership, the railroads failed to function properly, Mr. McAdoo said, he would favor reopening the railroad question. He declared for a "fair trial" for the new railroad law but asserted it "can not settle the railroad problem because it does not reach fundamentals."

He declared himself for broader publicity for operations of the farm loan system; for means to bring producers and consumers closer; for representation of agriculture on board and commissions "when consistent with public welfare"; for a secretary of agriculture who "understands actual farm conditions"; for reduction of farm tenancy; and for "absolutely opposed to any abridgment of the right of free speech, free press or free assembly."

"I regard with concern," he said, "the tendency to restrict or impair those great constitutional guarantees upon which rest the foundations and perpetuity of democratic institutions."

Mr. McAdoo's answer was given in a letter to C. A. Lyman, secretary of the national board of farm organizations.

Y.W.C.A. CABINETS TO MEET AT RIPON

A district council of Y. W. C. A. cabinets will be held May 15-16 at Ripon college. Most of the members of the Lawrence cabinet are planning to attend.

A number of outside speakers have been arranged for, but several of the sessions will be devoted to discussions and reports. Most of the discussions will relate to the subjects of social service, finance and publicity. Each member of the cabinet is chairman of a certain department in the college organization and will give a report of her department at the meet.

SHERIFF AGAIN HELD FOR "BOOT-LEGGING"

By United Press Leased Wire
Minneapolis, Minn.—Sheriff Oscar Martinson and twelve others, charged with smuggling thousands of dollars worth of whisky from Canada, were re-indicted by a grand jury here today.

Demurrers to the original indictments were ordered by Judge Page Morris who ordered the grand jury to consider the case again. The case is expected to go to trial on the new indictments.

Martinson and his alleged colleagues are charged with having bought whisky in Canada and smuggled it to Minneapolis in coal cars covered with scrap iron.

Its "bootleg" value in this country was estimated at \$1,000,000.

FAT MELTS AWAY IN REDUCING CONTEST

By United Press Leased Wire
Chicago.—The fat began to fly here today. Four pounds of flesh was the sum total to date which experts had knocked off of fat people striving to get thin.

Dr. John Dill Robertson, city health commissioner, has undertaken the task of reducing the weight of two women. Antoinette Donnelly, health expert, has a score of men under her care.

A third contest was being conducted by Martin Delaney, former athletic trainer. Delaney has a class of fat men and women, two classes—both fat and thin.

BLOODHOUNDS ON TRAIL OF PHONE GIRL'S SLAYER

By United Press Leased Wire
Pontiac, Mich.—Bloodhounds were brought here today to track down the murderer of Vera Schneider, 20, pretty telephone operator who was choked to death.

The girl's body was found here shortly after midnight Sunday on the porch of a half built house. Two handkerchiefs had been knotted around her throat.

Charles Schneider of Elkton, offered a reward of \$1,000 for the capture of the murderer.

YANK HOCKEY PLAYERS LOSE TO CANADIANS

By United Press Leased Wire
Antwerp.—Canada's hockey team eliminated the American team in the semi-finals for the Olympic championship here yesterday, two to nothing. It was the most brilliant game ever witnessed in this country. The victory practically clinched the championship for the Canadians as they have only to meet the Swedes.

COSTS HALF CENT TO COLLECT ONE DOLLAR

INTERNAL REVENUE DEPARTMENT RULED BY CHARGES OF HUGE COSTS OF COLLECTION

Washington.—For every 53 cents expended in the administration of the internal revenue laws for the fiscal year 1919 the bureau of internal revenue collected \$100 in revenue. Total collections for the year amounted to \$3,850,150,078 and total expenditures to \$20,573,771.

These figures were made public by the bureau of internal revenue, in answer to statements appearing in various parts of the country concerning the cost of collection of the income tax.

Stirred by Illinois Rumor
The bureau is informed by a responsible agency in Illinois that there are in circulation in that state "absurd but nevertheless credited rumors" regarding collection costs. "One of the wildest statements," the bureau is told, "is that it costs 60 per cent of the total amount of tax collected to pay for the cost of collection."

Includes all Costs
Of the total collection for the fiscal year 1919, \$2,600,732,902 were in income and excess profits taxes. The ratio of 53 cents expenditure for every \$100 includes not only cost of collection of this sum, but of all other revenue—part of which, such as the child labor tax, is not expected to be commensurate with the cost of administration—as well as the cost of operation of the many nonrevenue functions the bureau is called upon to perform.

The actual ratio of cost in the collection of income tax is less, therefore, than 53 cents for every \$100 collected, which relates to the cost of the bureau's entire operations for the year.

INCORPORATIONS

Madison, Wis.—Articles of incorporation have been filed with the Secretary of State as follows:

Pamphico Club, Milwaukee, non-stock, social, incorporators: Albert C. Dolezal, John Blaha, Elmer Herlitz.

The Janesville Federation of Women, Janesville, non-stock, civic welfare, charitable and benevolent, incorporators: Gertrude Cobb, Mrs. L. E. Amerpohl, Mrs. S. M. Smith.

Mechanical Supply and Construction Co., Milwaukee, \$40,000. General contracting and dealing in building materials, incorporators: Jacob Schuh, Hugo Lippert, Charles G. Schumann.

Ascher's Theatres Corporation, Milwaukee, \$125,000. To promote and operate amusement enterprises, incorporators: Reginald I. Kenney, Helen D. Townley, Geraldine B. Kenney.

Blatz-Kasten and Co., Milwaukee, increase capital from \$50,000 to \$50,000.

The Golden Eagle Clothing Co., Beloit, increasing capital from \$25,000 to \$50,000.

William R. Compton Investment Co., Missouri, withdrawal.

Ranger Refining Co., Arizona, withdrawal.

A RAW, SORE THROAT

Eases Quickly When You Apply a Little Musterole.

And Musterole won't blister like the old-fashioned mustard plaster. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out the soreness and pain. Musterole is a clean, white ointment made with oil of mustard. It is fine for quick relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bite, colds on the chest. Nothing like Musterole for croupy children. Keep it handy for instant use. 30c and 60c jars; hospital size \$2.50.

MUSTEROLE
WILL NOT BLISTER

OUJIA BOARD TELLS WHERE CAR BELONGED

Superior, Wis.—An oujia board is given credit for furnishing the tip that led to the return of a stolen automobile. A machine was apparently abandoned on the road in front of the residences of Mrs. John Miller and Mrs. John Deiser in Wascott, Wis., and after a discussion as to where the car probably came from, the two women decided to leave it to the oujia board to decide. The small table slid through the alphabet and spelled "in a city, 50 miles north of Wascott." Mrs. Miller called upon the Superior police department and the car was found to answer the description of one stolen from Leonard Draper, Duluth. A detective was dispatched to Wascott and the automobile was turned over to the owner.

INVALID FOR 27 YEARS MOURNED BY COMMUNITY

Escanaba, Mich.—An invalid for 27 years, William Sauer, 72, died at his home here. He was one of the most beloved men of the community. He was injured 27 years ago, never recovering fully. He was born in Milwaukee and resided in Bailey's Harbor before coming to Escanaba. A widow and 10 children survive, also two brothers, E. J. Sauer, Milwaukee, and George Sauer, Tacoma, Wash.

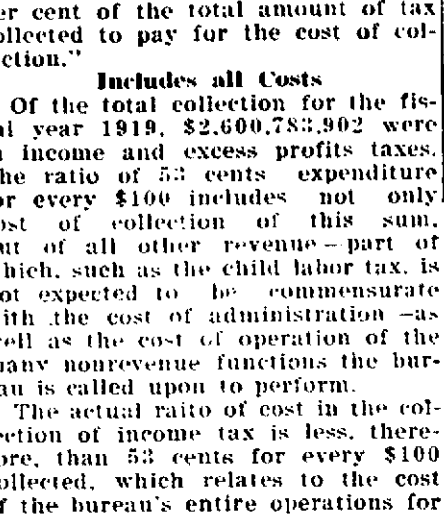

SEEK WOMAN'S BODY IN FLAMBEAU RIVER

Ladysmith, Wis.—Mrs. Henry Miln, well known resident of Ladysmith, left home late at night and went to the bridge over the Flambeau river. Search is being made for the body.

Day Treatment for Colds

Place half teaspoonful of Men-tho-eze in a tea cup of boiling water and inhale fumes deeply as shown. Also insert in nostrils. Repeat in 20 minutes.

FOR COLDS, CATARRH OR INFLUENZA

Do you feel weak and unequal to the work ahead of you? Do you still cough a little, or does your nose bother you? Are you pale? Is your blood thin and watery? Better put your body into shape. Build strong!

An old, reliable blood-maker and herbal tonic made from wild roots and herbs, is Dr. Pierce's Golden Medical Discovery. This "nature remedy" comes in tablet or liquid form. It will build up your body and protect you from disease germs which lurk everywhere. One of the active ingredients of this temperance alternative and tonic is wild cherry bark with stillingia, which is so good for the lungs and for coughs; also Oregon grape root, blood root, stone root, Queen's root—all skillfully combined in the Medical Discovery. These roots have a direct action on the stomach, improving digestion and assimilation. These herbal extracts in the "Discovery" aid in blood-making and are best for scrofula. By improving the blood they fortify the body against an attack of grip or colds.

Catarrh should be treated, first, as a blood disease, with this alternative. Then, in addition, the nose should be washed daily with Dr. Sage's Catarrh Remedy.

Send for trial pkg. of Medical Discovery Tablets or Catarrh Tablets to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

Vicious "Germ Nests"

Millions of Cold and Influenza Germs Lodge and Breed in Them

Health authorities now agree that most colds and influenza begin in the nose and throat. There germs multiply in thousands of crevices and pockets known as "germ nests."

A single germ may grow to millions in a night. Mucous discharges, stuffed-up head, coughs, colds and influenza often result.

Modern Living Does It

Dust-laden air, dry indoor heating, poor ventilation—all tend to lowered resistance and infection.

So health authorities advocate antiseptic, preventive treatment. They say colds and influenza rarely occur if these "germ nests" are hygienic and healthful. Yet to find safe, effective treatment seemed impossible.

Science Finds Remedy

Medical science, after countless experiments, has found a treatment to combat "germ nests." It is amazingly effective. Yet it is safe. Six years of testing prove it beyond question.

This treatment is Men-tho-eze—a scientific, antiseptic cream.

To relieve colds or stuffed-up head, use the Men-tho-eze "Day or Night" treatments shown above. To prevent colds—to fortify and protect the tiny "germ nests" against infections—insert Men-tho-eze each night and morning in nostrils.

For sale by druggists—price 35c and 70c.

MENTHO-EZE

Address.....

"Grandma Knows"
Men-tho-eze is good for colds because it contains goose grease and turpentine.

Two sizes of packages. The large size contains nearly three times as much as small.

Vicious "Germ Nests"

Millions of Cold and Influenza Germs Lodge and Breed in Them

Health authorities now agree that most colds and influenza begin in the nose and throat. There germs multiply in thousands of crevices and pockets known as "germ nests."

A single germ may grow to millions in a night. Mucous discharges, stuffed-up head, coughs, colds and influenza often result.

Modern Living Does It

Dust-laden air, dry indoor heating, poor ventilation—all tend to lowered resistance and infection.

So health authorities advocate antiseptic, preventive treatment. They say colds and influenza rarely occur if these "germ nests" are hygienic and healthful. Yet to find safe, effective treatment seemed impossible.

Science Finds Remedy

Medical science, after countless experiments, has found a treatment to combat "germ nests." It is amazingly effective. Yet it is safe. Six years of testing prove it beyond question.

This treatment is Men-tho-eze—a scientific, antiseptic cream.

To relieve colds or stuffed-up head, use the Men-tho-eze "Day or Night" treatments shown above. To prevent colds—to fortify and protect the tiny "germ nests" against infections—insert Men-tho-eze each night and morning in nostrils.

For sale by druggists—price 35c and 70c.

MENTHO-EZE

A Scientific, Antiseptic Cream for Colds

Two "Day Treatments" FREE
